J. Indian Chem. Soc.,
Vol. 82, December 2005, pp. 1227-1259

Journal of the Indian Chemical Society

Vol. 82, 2005

Subject Index

Absorption spectrophotometry

Synergistic extraction of uranium(VI) in presence of 2,2′-dipyridyl and neutral donors by absorption spectrophotometric method, 1035

Acetylacetone

Pyridinium hydrobromide perbromide as a brominating agent for the bromination of metal(II) complexes of Schiff base derived from acetylacetone and *p*-anisidine, 443

Acetylcholine

Quantitative structure activity relationship (QSAR) studies on sulphide analogues as potent M_2 muscarinic receptor antagonists, 850

Acoustic properties

Acoustic studies of systems of aliphatic and aromatic hydrocarbons with 1-butanol at 298, 308 and 318 K and application of theoretical approaches, 791

Acrylamide

A study on the effectiveness of hexamethyltriethylenetetraamine ligand in the copper mediated atom transfer radical polymerization of acrylamide, 819

Acrylate polymers

Morphology and electrokinetic behavior of styrene-2-ethylhexyl acrylate copolymer latex for coatings prepared by two-stage seeded emulsion polymerization, 63

Acrylonitrile

Ruthenium(III) catalysed polymerization of acrylonitrile with aminoalcohols in presence of CCl_4, 521

2-Acylpyrrole

Vilsmeier-Haack preparation of 2-acylpyrroles using bis(trichloromethyl)carbonate and *N*,*N*-dimethylacylamines, 1019

Adsorption

Kinetic and isotherm analyses for adsorption of a triphenylmethane dye onto jackfruit peel carbon, 232

Removal of copper from wastewater using rice polish (rice bran), 374

Synthetic hydrous titanium(IV) oxide (HTO) : Adsorptive removal of lead(II) from the contaminated industrial waste water, 632

Adsorption-desorption of carbofuran in soils, 989

Adsorption equilibrium

Adsorption and equilibrium studies on removal of copper(II) by chitin, 21

Adsorption of cadmium

Lowcost bio-sorbent 'maize bran' for the removal of cadmium from wastewater, 342

Adsorption of chitin

Adsorption and equilibrium studies on removal of copper(II) by chitin, 21

Adsorption of copper(II)

Adsorption and equilibrium studies on removal of copper(II) by chitin, 21

Aleuritic acid

A novel synthesis of *Z*-(9)-hexadecenal in improved yields, from aleuritic acid, 475

Aliphatic alcohols

Kinetics and mechanism of oxidation of aliphatic alcohols by *N*-chloronicotinamide in aqueous acetic acid medium, 795

Aliphatic ester

A new aliphatic ester from the aerial parts of *Polygonum polystachyum*, 757

Alkali metals

Excess viscosities (η^E) of glycine with halide salts of alkali metals of IA group in aqueous solutions at 310.15 K for structural interactions, 1091

Alkaline earth metals

Mixed ligand complexes of alkaline earth metals. Part-XIV. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes with 5-nitrosalicylaldehyde and salicylaldehyde or hydroxyaromatic ketones, 1003

Alkaloids

Alkaloids of *Heliotropium indicum*, 175

Alkoxyphthalimide

Synthesis of alkoxyphthalimide derivatives of 5-arylidene-2-(6′-chlorobenzothiazol-2′-yl-imino)-4-thiazolidinones, 754

Alkyd resin

Studies on alkyd resin from *Pithecellobrium dulce*, 186

Alkyl esters

An eco-friendly method for the synthesis of aryl and alkyl and alkyl esters of carboxylic acids using acid activated Indian bentonite, 922

Alluvial and laterite soils

A sudy on quantity/intensity parameters of soil potassium following a year of cropping in an alluvial and a lateritic soil of West Bengal, 371

Alumina

Substitution of silica by active alumina in triaxial porcelain, 637

Utilization of fly ash for production of Al_2O_3-cordierite composites, 788

Aluminium(III) ions

A potentiometric sensor based on heterogeneous inorganic chelating ion exchanger for the determination of Al^{III} ions, 507

Aluminophosphate molecular sieve

Synthesis and characterization of a novel extra large pore aluminophosphate molecular sieve, NCL-6, 77

Amino acids

Electrochemical and EPR spectral investigations of mixed-ligand copper(II) complexes involving 2,2′-bipyridine and aminoacids, 829

Complexation behaviour of Cd with methylimino diacetic acid (MIDA) and some amino acids at DMF, 967

Amino alcohol

Kinetics and mechanism of Mn^{II} catalysed oxidation of amino alcohols (AAL) by Ce^{IV} in aqueous nitric acid medium, 569

Amino coumarins

Novel method for synthesis of some biologically active aminocoumarins, 258

***p*-Aminoacetanilide**

Methodology for the estimation of carbofuran in rice, wheat and water samples, 183

***p*-Aminoacetophenone**

A sensitive spectrophotometric method for determination of carbon tetrachloride, 272

Aminopyrimidine

Ultrasonic irradiated synthesis and herbicidal activities of 5,7-disubstituted-2-(substituted pyridine-3-formylimino)-2*H*-1,2,4-thiadiazolo[2,3-*a*]-pyrimidine derivatives, 79

Analgesic drugs

Conductance measurements of narcotic-analgesic drugs in ethanol + water mixtures at 25°C, 602

Analysis of geological samples

Application of voltammetric methods for the analysis of lead and other trace metals in lepidolite rock sample, 265

Antagonists

Quantitative structure activity relationship (QSAR) studies on sulphide analogues as potent M_2 muscarinic receptor antagonists, 850

Antibacterial activity

Synthesis and antibacterial activity of new *N*-acyl-*N*′-(3-chloro-4′-fluorophenyl)thioureas, 761

Antiferromagnetism

Ligand dependent metal-metal interaction in mixed-ligand oxovanadium(IV) coordination compounds with OO and NN donor ligands, 857

Antifungal screening

Synthesis and antifungal screening of some new 1,3-diketo aminoanalogues, 942

Antifungal studies

Synthesis and antifungal activity studies of some pyrazolopyrimidine derivatives, 665

Antimetabolite

Assay of some biologically active antimetabolite antineoplastic drugs with *N*-bromosuccinimide reagent, 1027

Antimicrobial activity

Synthesis of substituted *s*-triazine derivatives and studies of their antimicrobial activities, 83

Ring transformation reactions of 3-[3/4-acetylphenyl] sydnones; synthesis of oxime, hydrazone and dibromo derivatives of 3-[3/4-acetylphenyl] sydnones and 3-[3/4-acetylphenyl]-5-methyl-[1,3,4]oxadiazolin-2-ones, 654

Antimicrobial agents

Synthesis of 2,5-disubstituted 1,3,4-oxadiazoles as potential antimicrobial agents, 746

Antimony sulphide

Modification of photocatalytic activity of antimony(III) sulphide in presence of sodium bicarbonate/carbonate, 807

Antineoplastic

Assay of some biologically active antimetabolite antineoplastic drugs with *N*-bromosuccinimide reagent, 1027

Araldehydes

Synthesis of alkoxyphthalimide derivatives of *p*-bis-(2-hydroxy-4-aryl-6-iminothiazolidino[4,5-*b*]pyrimidin-N^6-yl)biphenyls, 337

Aromatic amines

Chromatography of aromatic amines on thin layers of zinc ferrocyanide-silica gel G with hybrid CTAB-alcohol-water mobile phase, 250

Aromatic hydrocarbons

Theoretical studies on the charge transfer complexes of aromatic hydrocarbons with chloranil, 909

Aromatic hydroxylamine

Electrochemical synthesis of aromatic hydroxylamines and amines and its comparison with chemical synthesis, 934

Arsenic affected soil

Distribution of different inorganic forms of arsenic in selected arsenic affected soils of the Bengal Delta Basin, 364

Arsenic in Bengal Basin

Distribution of different inorganic forms of arsenic in selected arsenic affected soils of the Bengal Delta Basin, 364

Arsenic in soil

Transport of aqueous arsenic in selected arsenic affected soils of West Bengal : A miscible displacement study, 100

Arsenic uptake by plants

Transport of aqueous arsenic in selected arsenic affected soils of West Bengal : A miscible displacement study, 100

Aryl esters

An eco-friendly method for the synthesis of aryl and alkyl esters of carboxylic acids using acid activated Indian bentonite, 922

Aryl selenides

Reductive cleavage of Se-Se bond by $Sm/NiCl_2$ or $Sm/NiCl_2.6H_2O$ system : A novel preparation of unsymmetrical aryl selenides, 958

Arylthiocarbamides

On lactosyl thioureides : synthesis of certain *S*-hepta-*O*-acetyl lactosyl-1-arylisothiocarbamides, 1025

Atom transfer

A study on the effectiveness of hexamethyltriethylenetetraamine ligand in the copper mediated atom transfer radical polymerization of acrylamide, 819

Atomic absorption spectroscopy

A rapid analytical method for the determination of gold in geochemical materials by atomic absorption spectrophotometry, 368

Axially chiral 4,4′-bicoumarinyl

Oxidative coupling of coumarin compounds with fuming sulphuric acid : 4,4′-bicoumarinyls as axially chiral compounds, 236

Azomethineindoles

Electrochemical behaviour of 3-[4′-(thiazolyl); 3-[4′-(acetyl)sulphonamoylphenyl] azomethineindoles, 411

Azo-oxime-carboxyl chelation

Planar four-coordinate nickel(II) complexes of tridentate ligands incorporating azo-oxime-carboxyl chelation : synthesis and structure, 898

Azure-B

Modification of photocatalytic activity of antimony(III) sulphide in presence of sodium bicarbonate/carbonate, 807

Barium

Mixed ligand complexes of alkaline earth metals. Part-XIII. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes with 5-nitrosalicylaldehyde and β-diketones, 137

Bartons deoxygenation

Radical reaction opening of glucosyl 1,2-cyclopropane derivatives : Synthesis of α and β C-glycosides and oxepane derivatives, 428

Bentonite

Determination of chromium, copper, manganese, nickel and zinc by flame atomic absorption spectrometry after separation of bentonite modified with trioctylamine, 134

An eco-friendly method for the synthesis of aryl and alkyl esters of carboxylic acids using acid activated Indian bentonite, 922

Benzene derivatives

Use of distance-based topological indices for the estimation of ^{13}C NMR shifts : A case of benzene derivatives, 247

Benzidine

Synthesis of alkoxyphthalimide derivatives of *p*-bis-(2-hydroxy-4-aryl-6-iminothiazolidino[4,5-*b*]pyrimidin-N^6-yl)biphenyls, 337

Benzimidazole

Bisbenzimidazole diamide copper(II) complexes and their reactivity towards superoxide, 1123

Benzofuroxan

An *ipso* aromatic substitution leading to a rare space group $P4_2$, 1129

Benzotriazole

Voltammetric method for the study of corrosion kinetics, 42

Binary complexes

Mixed metal complex formation of diethylenetriaminepentaacetic acid involving cadmium(II) and alkaline earth metal ions, 421

Equilibrium studies on binary and ternary complexes of palladium and cadmium with some nitrogen and oxygen donor ligands, 490

A novel ionophoretic technique in the study of binary and ternary metal-4-hydroxybenzoate complexes, 955

Binary mixtures

Excess molar volume, excess energy and viscosity deviation of binary mixtures of tetrahydrofuran with some hydrocarbons at various temperatures, 625

Acoustic studies of systems of aliphatic and aromatic hydrocarbons with 1-butanol at 298, 308 and 318 K and application of theoretical approaches, 791

Binary solvent

Spectroscopic studies of molecular interactions involving aniline and substituted aniline donors and chloranil as an electron acceptor in a binary solvent mixtures, 530

Bio-active chiral centre

A review of synthetic and molecular model study towards fixing up bio-active chiral centre at C_{28} of Lasonolide-A, an anticancer macrolide : A new chiral pool approach, 534

Biologically active macrolide

A novel synthesis of the north west portion of Lasonolide A – an anticancer macrolide using Claisen rearrangement, 52

Biological activity

Synthesis of some new thioquinazolinone derivatives of biological activity, 651

Synthesis and biological activity of some new pyrazole derivatives, 833

Biological samples

A sensitive spectrophotometric method for determination of carbon tetrachloride, 272

A new solid sorbent system for rapid monitoring of nicotine, 1032

Biomarkers

Biomarkers in relation to low level of ionising radiation exposure, 121

Biopolymers

Biomarkers in relation to low level of ionising radiation exposure, 121

Biphenyl-yl-4,4′-bisthiourea

Synthesis of alkoxyphthalimide derivatives of *p*-bis-(2-hydroxy-4-aryl-6-iminothiazolidino[4,5-*b*]pyrimidin-N^6-yl)biphenyls, 337

Bis(trichloromethyl)carbonate

Vilsmeier-Haack preparation of 2-acylpyrroles using bis(trichloromethyl)carbonate and *N*,*N*-dimethylacylamines, 1019

Bivalent metal ions

Synthesis of di(4-chlorophenyl)carbazone and its acidity with bivalent metal ions in solution, 351

Bovine serum albumin

Neutron reflectivity study of grafted poly(ethylene glycol) in the presence of an aqueous bovine serum albumin solution, 1133

Brass

Voltammetric method for the study of corrosion kinetics, 42

Bridging residues

A solution study of copper(II)-dipeptide complexation with tyrosinate and lysinate as bridging residues, 503

ω-Bromoalkoxyphthalimides

Synthesis of alkoxyphthalimide derivatives of *p*-bis-(2-hydroxy-4-aryl-6-iminothiazolidino[4,5-*b*]pyrimidin-N^6-yl)biphenyls, 337

***N*-Bromosuccinimide**

Assay of some biologically active antimetabolite antineoplastic drugs with *N*-bromosuccinimide reagent, 1027

$CaCl_2$

Soil engineering properties and stabilization of Purulia soil by chemical treatment (with calcium salts), 701

$Ca(OH_2)$

Soil engineering properties and stabilization of Purulia soil by chemical treatment (with calcium salts), 701

Cadmium complexes

Mixed metal complex formation of diethylenetriaminepentaacetic acid involving cadmium(II) and alkaline earth metal ions, 421

Equilibrium studies on binary and ternary complexes of palladium and cadmium with some nitrogen and oxygen donor ligands, 490

Cadmium(II) electrode

Cadmium(II) ion selective electrode based on pyridine-3-carboxyaldehyde thiosemicarbazone, 472

Cadmium(II) ions

Spectral and kinetic studies of thermal decomposition of complexes of biologically active glutathione with Zn^{II} and Cd^{II} ions, 1191

Calcium

Mixed ligand complexes of alkaline earth metals. Part-XII. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} compiexes with 5-nitrosalicylaldehyde and β-diketones, 137

Carbofuran

Adsorption-desorption of carbofuran in soils, 989

Carbofuran estimation

Methodology for the estimation of carbofuran in rice, wheat and water samples, 183

Carbon cathode

Temperature performance of the lithium/O_2 battery, 1055

Carbon sources

The effect of different carbon sources as an energy source for biological denitrification through *Pseudomonas stutzeri* and impact on other water quality parameters, 978

Carbon tetrachloride

A sensitive spectrophotometric method for determination of carbon tetrachloride, 272

Carboxylate binding

Synthesis and properties of long chain carboxyl and dicarboxyl chelated ruthenium organometallics incorporating the imine-phenol motif, 16

Catalysed polymerization

Ruthenium(III) catalysed polymerization of acrylonitrile with aminoalcohols in presence of CCl_4, 521

Catalytic hydrogenation

Reduction of nitroaromatics with a new heterogenised MCM-41-1-(benzimidazol-2-yl)ethanonethiosemicarbazone Pd^{II} complex, 153

Cephalexin

Complexation equilibria of cephalexin with Hg^{II}, Zn^{II} and Cd^{II}, 931

Ceric ammonium nitrate

Kinetics and mechanism of Mn^{II} catalysed oxidation of amino alcohols (AAL) by Ce^{IV} in aqueous nitric acid medium, 569

Cerium oxide ceramics

Sintering and mechanical behaviour of CeO_2 doped ZrO_2 ceramics, 578

Cesium halides

Viscometric studies of cesium halides, $(C_4H_9)_4NBr$, NaBr and $NaBPh_4$ in aqueous acetone at 298.15 K, 36

Chalcones

Thermal decomposition kinetics of Zn^{II} chelates of substituted chalcones, 1006

Chalcones and their derivatives

Larvicidal studies of chalcones and their derivatives, 161

Characterization

Synthesis and characterization of cardo copolyester of 9,9′-bis(4-hydroxy phenyl) anthrone-10 and 1,1′-bis(R,4-hydroxy phenyl) cyclohexane with terephthaloyl chloride, 620

Charge transfer complexes

Theoretical studies on the charge transfer complexes of aromatic hydrocarbons with chloranil, 909

Chemical constituents

Chemical constituents of *Phyllanthus maderaspatensis* Linn., 752

Chemical speciation

Microwave-assisted sequential extraction of fly ash : Studies on chemical speciation of zinc, copper, arsenic and manganese, 433

Chloramine-T

Use of chloramine-T for the determination of thiophosphate pesticides, 670

Chlorination

Mechanistic studies on the chlorination of phenols with *N*-chlorobenzene sulphonamide, 608

Chloroamilines

Chloroanilines as corrosion inhibitors for zinc in nitric acid, 739

Chloroanisidines

Spectrophotometric study of photosensitized dechlorination of isomeric chloroanisidines, 424

2-Chlorobenzaldehyde

Synthesis and reduction of nitrones of 2-chlorobenzaldehyde and their antifungal potential, 917

***N*-Chloro-*p*-sulphonamide**

Mechanistic investigation of oxidation of atenolol by *N*-chloro-*p*-toluenesulfonamide in alkaline medium : a kinetic approach, 903

***N*-Chlorobenzenesulphonamide**

Mechanistic studies on the chlorination of phenols with *N*-chlorobenzene sulphonamide, 608

***N*-Chloronicotinamide**

Kinetics and mechanism of oxidation of aliphatic alcohols by *N*-chloronicotinamide in aqueous acetic acid medium, 795

Chromatography

Chromatography of aromatic amines on thin layers of zinc ferrocyanide-silica gel G with hybrid CTAB-alcohol-water mobile phase, 250

Chromatographic separation

Chemical constituents of *Phyllanthus maderaspatensis* Linn., 752

Chromium(II) reduction

Chromium(II) reduction of halogenocobaloximes containing coordinated pyridine or pyridinecarboxamides : kinetics and mechanism, 9

Chromium(III) reduction

Chromium(III) reduction of halogenocobaloximes containing coordinated pyridine or pyridinecarboxamides : kinetics and mechanism, 860

Ciprofloxacin complexes

UV and fluorescence spectral characteristics of Ciprofloxacin-Betacyclodextrin inclusion complex, 575

Claisen rearrangement

A novel synthesis of the north west portion of Lasonolide A – an anticancer macrolide using Claisen rearrangement, 52

Clay composition

Studies on effect of silane coupling agent on the mechanical properties of clay filled natural rubber, 985

Cobaloximes

Chromium(II) reduction of halogenocobaloximes containing coordinated pyridine or pyridinecarboxamides : kinetics and mechanism, 9

Cobalt(II) complexes

Isolation and characterisation of cobalt(II)-reduced glutathione complex, 737

Cobalt(II) salicylate

Synthesis and spectroscopic studies of Co^{II} salicylates with N-donors, 589

Cobalt(III) complexes

Synthesis of mixed ligand complexes of Co^{III}, 441

Coenzyme

PQQ, a new vitamin as a preventive against heart attack and strokes, 1065

Cohesive forces

Densities and apparent molar volumes for glycine, DL-α-alanine and β-alanine for water and water + (1, 3, 5 and 7 *M*) urea solutions at 288.15, 298.15 and 308.15 K, 295

Compaction

Soil engineering properties and stabilization of Purulia soil by chemical treatment (with calcium salts), 701

Complexation

Complexation behaviour of Cd with methylimino diacetic acid (MIDA) and some amino acids at DMF, 967

Complexes

Synthesis and characterization of Pb^{II}, Sn^{II}, Hg^{II} and Zn^{II} complexes with Schiff base of aminothiazoles, 452

Complexes of tin(IV) and zirconium(IV)

Complexes of tin(IV) and zirconium(IV) with Schiff bases derived from isatin and diamines, 71

Commemoration lecture

Structural studies on sesquiterpenoids and thiophenic acetylenes from some Asteraceae plants, 214

Composite anode

Nanophase Sn composite anodes for Li-ion batteries, 1119

Compression index

Soil engineering properties and stabilization of Purulia soil by chemical treatment (with calcium salts), 701

Conductivity

Conductivity, viscosity and volumetric behavior of molten hydrates of M^{3+} and M^{2+} ions, 1079

Conductivity measurements

Conductance measurements of narcotic-analgesic drugs in ethanol + water mixtures at 25°C, 602

Coordination compounds

Electrochemical reactions at sacrificial electrodes. Part-XVI : Synthesis of zinc thiolates/dithiolates and their coordination compounds, 555

Copolyesters

Synthesis and characterization of cardo copolyester of 9,9′-bis(4-hydroxy phenyl) anthrone-10 and 1,1′-bis(R,4-hydroxy phenyl) cyclohexane with terephthaloyl chloride, 620

Copper

Removal of copper from wastewater using rice polish (rice bran), 374

Electrochemical and EPR spectral investigations of mixed-ligand copper(II) complexes involving 2,2′-bipyridine and aminoacids, 829

Copper complexes

Macrocyclic nickel(II) and copper(II) complexes derived from triethylenetetramine, 485

A solutions study of copper(II)-dipeptide complexation with tyrosinate and lysinate as bridging residues, 503

Copper(II) complexes

Electrochemical and spectroscopic studies on the interaction between copper(II) complex of Schiff base ligand and DNA, 393

Synthesis, cyclic voltammetry, spectral studies and magnetic moment on copper(II) complexes with N_2S_3 and N_4 donor macrocyclic ligands, 693

Synthesis and characterization on nickel(II) and copper(II) complexes of some large-ring macrocycles derived from diethylenetriamine, 732

Copper(II) complexes with twelve to fourteen membered ring macrocyclic ligands, 1087

Bisbenzimidazole diamide copper(II) complexes and their reactivity towards superoxide, 1123

Cyclic voltammetric and EPR spectral studies of copper(II)-chloro and -bromo complexes in organo and organo-aqueous media, 960

Copper(III) reagent

Micro determination of oxprenolol hydrochloride and metoprolol tartrate with potassium dipertellurato cuprate(III) reagent, 362

Cordierite

Utilization of fly ash for production of Al_2O_3-cordierite composites, 788

Corrosion

Inhibitory effect of *Ricinus communis* (Castor-oil plant) leaf extract on corrosion of mild steel in low chloride medium, 357

Electrochemical and corrosion studies on electrosynthesised CdInGaSe thin films, 845

Corrosion inhibitor

Voltammetric method for the study of corrosion kinetics, 42

Chloroanilines as corrosion inhibitors for zinc in nitric acid, 739

Coumarate

Chemical constituents of *Coriaria nepalensis* Wall., 750

Coumarin

Gerlanugin, a new coumarin from *Gerbera lanuginosa*, 748

Coupling reaction

A novel synthesis of the north west portion of Lasonolide A – an anticancer macrolide using Claisen rearrangement, 52

Crown ethers

Synthesis and characterization of new crown ethers of Schiff base type and their complexes, 414

Crystal violet

Solvent effect on alkaline fading of crystal violet in pure and aqueous mixtures of alcohols, 149

Crystalline products

Solid state conductance in sucrose and its allied crystalline products, 437

Culex quinquefasciatus

Larvicidal studies of chalcones and their derivatives, 161

Studies on a carbazole alkaloid from *Murraya koenigii* Spreng. and flavonoids from *Pongamia glabra* Vent., 165

Cyclic ketones

Kinetics of Mn^{2+} catalysed oxidation of cyclic ketones by lead tetraacetate, 710

Cyclic voltammetry

Electrochemical and spectroscopic studies on the interaction between copper(II) complex of Schiff base ligand and DNA, 393

Synthesis, cyclic voltammetry, spectral studies and magnetic moment on copper(II) complexes with N_2S_3 and N_4 donor macrocyclic ligands, 693

EPR spectral and redox properties of some 2,9-dimethyl-1,10-phenanthroline copper(II) complexes, 824

Electrochemical and EPR spectral investigations of mixed-ligand copper(II) complexes involving 2,2′-bipyridine and aminoacids, 829

Synthesis, spectral, biological, thermal and cyclic voltammetric studies of some Ni^{II} complexes of azodyes derived from 4-amino antipyrine, 886

Cyclic voltammetric and EPR spectral studies of copper(II)-chloro and -bromo complexes in organo and organo-aqueous media, 960

Cycloaddition

1,3-Dipolar cycloadditions of nitroness derived from protocatechuric aldehyde methylene ether : synthesis of isoxazole-4,6-diones, 1011

Cyclopropane

Radical reaction opening of glucosyl 1,2-cyclopropane derivatives : Synthesis of α and β C-glycosides and oxepane derivatives, 428

Dehydration of $CuCl_2.H_2O$

Kinetics of thermal dehydration and decomposition of hydrated chlorides of some 3d transition metals (Mn-Cu series). Dehydration and decomposition of $CuCl_2.2H_2O$, 108

Denitrification

The effect of different carbon sources as an energy source for biological denitrification through *Pseudomonas stutzeri* and impact on other water quality parameters, 978

Density and viscosity

Density and viscosity of binary liquid mixtures of *n*-propylamine with polar and non-polar solvents vis-à-vis molecular interactions, 225

Derivative spectrophotometry

Direct and derivative spectrophotometric determination of iron(III) with 2,4-dihydroxy benzaldehyde isonicotinoyl hydrazone in plant and pharmaceutical samples, 269

Determination of copper(II)

Adsorptive cathodic stripping voltammetric determination of copper in fish samples, 842

Extractive spectrophotometric determination of trace amounts of copper(II) using 1,5-diphenyl-1,4-pentadiene-3-oxime, 1038

Determination of iron(III)

Direct and derivative spectrophotometric determination of iron(III) with 2,4-dihydroxy benzaldehyde isonicotinoyl hydrazone in plant and pharmaceutical samples, 269

Di(4-chlorophenyl)carbazone

Synthesis of di(4-chlorophenyl)carbazone and its acidity with bivalent metal ions in solution, 351

Diaminotetrazole

Use of 1,5-diaminotetrazole in the synthesis of some fused heterocyclic compounds, 172

3,3′-Diamino-4,4′-bicoumarinyl

Oxidative coupling of coumarin compounds with fuming sulphuric acid : 4,4′-bicoumarinyls as axially chiral compounds, 236

Dibenzofuran series

Complex compounds of nickel(II) with bidentate heterocyclic ligands using both S and N as donor atoms, 389

Dichlorochrysanthemoyl thiourea

Synthesis and biological activity of *N′*-(substituted pyrimidin-2-yl)-*N*-dichlorochrysanthemoyl thioureas and their fused heterocyclic compounds, 262

Dichloromethane

Spectrophotometric determination of rhodium(III) using 5-Br-PADAP and *N*-hydroxy-*N,N′*-diphenylbenzamidine as reagent by extracting it in dichloromethane, 285

Diethylenetriamine

Synthesis and characterization of nickel(II) and copper(II) complexes of some large-ring macrocycles derived from diethylenetriamine, 732

3,3′-Dihydroxy-4,4′-bicoumarinyl

Oxidative coupling of coumarin compounds with fuming sulphuric acid : 4,4′-bicoumarinyls as axially chiral compounds, 236

1,3-Diketoamine

Synthesis and antifungal screening of some new 1,3-diketo amino analogues, 942

Dioxotungsten(VI)

Synthesis and characterization of some isothiocyanato complexes of dioxotungsten(VI) with morpholinomethyl urea and related ligands, 594

Dipeptide complexation

A solution study of copper(II)-dipeptide complexation with tyrosinate and lysinate as bridging residues, 503

Diphenyltin(IV) complexes

Synthesis, spectral characterization and reactivity of chloro diphenyltin(IV) dithiocomplexes having Sn-S bonds, 964

DMF

Complexation behaviour of Cd with methylimino diacetic and (MIDA) and some amino acids at DMF, 967

DNA : H_1 complex

Interaction of deoxyribonucleic acid with H_1 histone in the unirradiated and gamma irradiated states *in vitro*, 310

Dropping mercury electrode

Study of complexes of cadmium(II) and lead(II) with mixed ligand (thioglycolate-oxalate/tartarate) systems in aqueous-methanol media at the droping mercury electrode, 561

Electrochemical behaviour

Electrochemical behaviour of 3-[4′-(thiazolyl); 3-[4′-(acetyl)sulphonamoylphenyl] azomethineindoles, 411

Electrochemical behaviour of 3-[benzothiazolyl] azomethineindole, 714

Electrochemical characterization

Reaction of pyridine bases with dichloro-{1-(alkyl)-2-(*p*-tolylazo)imidazole}-platinum(II). Spectroscopic and electrochemical characterization of products, 459

Electrochemical reactions

Electrochemical reactions at sacrificial electrodes. Part-XVI : Synthesis of zinc thiolates/dithiolates and their coordination compounds, 555

Electrochemical studies

Electrochemical studies on textile dye naphthol yellow S with particular reference to colour removal, 306

Electrochemical and corrosion studies on electrosynthesised CdInGaSe thin films, 845

Synthesis, spectroscopic, electrochemical and anti-HIV studies of some mononuclear and dinuclear Fe^{III} complexes of 3-hydroxy-4′-benzyloxy flavone containing oxygen, nitrogen and sulphur donors as co-ligands, 879

Electrochemical synthesis of aromatic hydroxylamines and amines and its comparison with chemical synthesis, 934

Electrochemistry

EPR spectral and redox properties of some 2,9-dimethyl-1,10-phenanthroline copper(II) complexes, 824

Cyclic voltammetric and EPR spectral studies of copper(II)-chloro and -bromo complexes in organo and organo-aqueous media, 960

Electrokinetic behaviour

Morphology and electrokinetic behavior of styrene-2-ethylhexyl acrylate copolymer latex for coatings prepared by two-stage seeded emulsion polymerization, 63

Electrolytes and non-electrolytes

Viscometric studies of aqueous solutions of electrolytes and non-electrolytes, 333

Electron microscopy

Electron microscopy study and vulcanization characteristics of insoluble sulfur, 538

Electronic spectra

Cr^{III}, Fe^{III}, Co^{II}, Ni^{II}, Cu^{II} and Zn^{II} complexes of 2,13-dimethyl-3,14-di-n-propyl-1,4,12,15-tetraazacyclodocosa-1,3,12,14-tetraene, 97

Template synthesis of Mn^{II} complexes of tetraaza-macrocycles derived from 2,3-butanedione and diaminoalkanes, 140

Electrostriction

Densities and apparent molar volumes for glycine, DL-α-alanine and β-alanine for water and water + (1, 3, 5 and 7 *M*) urea solutions at 288.15, 298.15 and 308.15 K, 295

Emulsion polymerization

Morphology and electrokinetic behavior of styrene-2-ethylhexyl acrylate copolymer latex for coatings prepared by two-stage seeded emulsion polymerization, 63

Environmental degradability

Green chemistry in sustainable national development, 1103

EPR studies

EPR spectral and redox properties of some 2,9-dimethyl-1,10-phenanthroline copper(II) complexes, 824

Equilibrium studies

Equilibrium studies on binary and ternary complexes of palladium and cadmium with some nitrogen and oxygen donor ligands, 490

Errata

Kinetics of solid state reactions under isothermal and non-isothermal conditions, 768

Ester

The systhesis of Sintenin, a new cytotoxic ester from *Piper sintenense*, 938

Estimation of gold

A rapid analytical method for the determination of gold in geochemical materials by atomic absorption spectrophotometry, 368

Ethalpimetric titration

Estimation of 3-(2-hydroxy-5-methylphenyl)-5,5-dimethyl-1-phenylpyrazoline in organic solvent medium, 360

Exchange capacity

Exchange capacity of soils, metal mobilization and soil pollution heavy metals in West Bengal, 240

Exchangeable cations

Physico-chemical properties of soils of West Bengal mainly from non-deltaic region, 511

Exothermic

Removal of copper from wastewater using rice polish (rice bran), 374

Fatty acids

Lipid profile and fatty acid composition in eggs of Gangetic little barb *Puntius sophore* in comparison with body tissue lipid, 723

Fatty acids (saturated and unsaturated)

Chemical investigation of oil from *Psoralea corylifolia* Linn., 60

Fenitrothion

Determination of fenitrothion in water samples by spectrometry using new reagents iminodibenzyl and 4-amino-5-hydroxy-2,7-naphthalene disulfonic acid, 764

Flame atomic absorption spectrometry

Determination of chromium, copper, manganese, nickel and zinc by flame atomic absorption spectrometry after separation of bentonite modified with trioctylamine, 134

Fluoromethanethiol

Theoretical studies on the thermal decomposition of fluoromethanethiol (CH_2FSH), 114

Fly ash

Microwave-assisted sequential extraction of fly ash : Studies on chemical speciation of zinc, copper, arsenic and manganese, 433

Utilization of fly ash for production of Al_2O_3-cordierite composites, 788

Effect of titanate coupling agent on the mechanical properties of flyash filled styrene butadiene, 981

Forensic science

GC-MS and HPTLC analysis of constituents of an unexploded bomb, 131

Forms of arsenic

Distribution of different inorganic forms of arsenic in selected arsenic affected soils of the Bengal Delta Basin, 364

Fourteen membered ring complexes

Copper(II) complexes with twelve to fourteen membered ring macrocyclic ligands, 1087

Friccohesity

Studies of intermolecular force coefficient (σ^0_{imf}) for methyl derivatives of urea in aqueous solutions with Friccohesity, a new physicochemical function, from 293.15 to 303.15 K, 1183

Friedel-Crafts reactions

Friedel-Crafts acylation of furan and thiophene using ytterbium(III) trifluoromethanesulfonate in [BPy][BF_4] ionic liquid, 398

Fuel cell

Hydrogen purification for fuel cells : selective oxidation of carbon monoxide on Pd and FePd/Al_2O_3 catalysts, 1141

Fujiwara reaction

A sensitive spectrophotometric method for determination of carbon tetrachloride, 272

Fuming sulphuric acid

Oxidative coupling of coumarin compounds with fuming sulphuric acid : 4,4′-bicoumarinyls as axially chiral compounds, 236

Fungicide

A new spot test for the detection of dithiocarbamate fungicides in soil and water, 926

Furan

Friedel-Crafts acylation of furan and thiophene using ytterbium(III) trifluoromethanesulfonate in [BPy][BF_4] ionic liquid, 398

GC-MS

GC-MS and HPTLC analysis of constituents of an unexploded bomb, 131

Geochemical materials

A rapid analytical method for the determination of gold in geochemical materials by atomic absorption spectrophotometry, 368

Gerlanugin

Gerlanugin, a new coumarin from *Gerbera lanuginosa*, 748

Glucoside

Chemical constituents of *Coriaria nepalensis* Wall., 750

Glutathione complex

Isolation and characterisation of cobalt(II)-reduced glutathione complex, 737

C-Glycoside

Radical reaction opening of glucosyl 1,2-cyclopropane derivatives : Synthesis of α and β C-glycosides and oxepane derivatives, 428

Green chemistry

Green chemistry in sustainable national development, 1103

Halide salts

Excess viscosities (η^E) of glycine with halide salts of alkali metals of IA group in aqueous solutions at 310.15 K for structural interactions, 1091

Heavy metals

Exchange capacity of soils, metal mobilization and soil pollution heavy metals in West Bengal, 240

Herbicidal activity

Ultrasonic irradiated synthesis and herbicidal activities of 5,7-disubstituted-2-(substituted pyridine-3-formylimino)-2*H*-1,2,4-thiadiazolo[2,3-*a*] pyrimidine derivatives, 79

Synthesis and biological activity of *N*′-(substituted pyrimidin-2-yl)-*N*-dichlorochrysanthemoyl thioureas and their fused heterocyclic compounds, 262

Heterochelates

Effect of the structural changes, correlation and role of donor atoms on the stabilities of some binary lanthanone(III) heterochelates in aqueous media, 547

Heterocyclic ligands

Complex compounds of nickel(II) with bidentate heterocyclic ligands using both S and N as donor atoms, 389

Hexadecenal

A novel synthesis of *Z*-(9)-hexadecenal in improved yields, from aleuritic acid, 475

HPCL

Determination and quantification of piroxicam in tablets by RP-HPLC, 838

HPTLC

GC-MS and HPTLC analysis of constituents of an unexploded bomb, 131

Hybrid-CTAB-alcohol-water

Chromatography of aromatic amines on thin layers of zinc ferrocyanide-silica gel G with hybrid CTAB-alcohol-water mobile phase, 250

Hydrazones

Termolecular one-pot synthesis of symmetrical azines of 4-acetyl-3-arylsydnones. Hydrazone and azine derivatives of 4-acetyl-3-arylsydnones, their spectral characterization and biological properties, 659

Synthesis and spectroscopic studies on oxovanadium(IV) complexes with hydrazones containing indole ring, 689

Hydrazone ligands

Chemistry of mononuclear and mixed valence binuclear oxovanadium chelates incorporating ONO-hydrazone ligands, 781

Hydrogen bonding

Planar four-coordinate nickel(II) complexes of tridentate ligands incorporating azo-oxime-carboxyl chelation : synthesis and structure, 898

Hydroxy pyridinone ligands

Synthesis of recyclable polymeric chelator containing hydroxy pyridinone ligands for actinides, 68

***N*-Hydroxymethylation**

Solvent-free *N*-hydroxymethylation using formalin over basic alumina, 573

Iminodibenzyl

Determination of fenitrothion in water samples by spectrometry using new reagents iminodibenzyl and 4-amino-5-hydroxy-2,7-naphthalene disulfonic acid, 764

Indirect complexometric

Rapid determination of phosphate by indirect complexometric method, 1030

Indole

Synthesis and spectroscopic studies on oxovanadium (IV) complexees with hydrazones containing indole ring, 689

Industrial waste water

Synthetic hydrous titanium(IV) oxide (HTO) : Adsorptive removal of lead(II) from the contaminated industrial waste water, 632

Infrared spectra

Infrared spectra of *N*-aryl substituted amides 2/4-XC_6H_4NHCOR (R = H, $CH_{3-i}X_i$, C_6H_5 or C_6H_5Cl; X = H, Cl or CH_3 and i = 0, 1, 2 or 3), 564

Inner transition metals

Reductive cleavage of Se-Se bond by $Sm/NiCl_2$ or $Sm/NiCl_2.6H_2O$ system : A novel preparation of unsymmetrical aryl selenides, 958

Inorganic ion-exchanger

Bismuth(III)-selective membrane electrode based on inorganic ion exchanger, 875

Insoluble sulphur

Electron microscopy study and vulcanization characteristics of insoluble sulfur, 538

Intensity parameters of soil

A study on quantity/intensity parameters of soil potassium following a year of cropping in an alluvial and a lateritic soil of West Bengal, 371

Interaction coefficients

Densities and apparent molar volumes for glycine, DL-α-alanine and β-alanine for water and water + (1, 3, 5 and 7 *M*) urea solutions at 288.15, 298.15 and 308.15 K, 295

Interionic distances

Structural analysis on molten rare-earth fluorides, 1059

Intermolecular interactions

Studies of intermolecular force coefficient (σ^0_{imf}) for methyl derivatives of urea in aqueous solutions with Friccohesity, a new physicochemical function, from 293.15 to 303.15 K, 1183

Intraparticle diffusion

Kinetic and isotherm analyses for adsorption of a triphenylmethane dye onto jackfruit peel carbon, 232

Ion-exchanger

A potentiometric sensor based on heterogeneous inorganic chelating ion exchanger for the determination of Al^{III} ions, 507

Ionic liquids

Nanoscopic structure of ionic liquids by neutron and X-ray diffraction, 1197

Ionising radiation

Biomarkers in relation to low level of ionising radiation exposure, 121

Ionophoretic technique

A novel ionophoretic technique in the study of binary and ternary metal-4-hydroxybenzoate complexes, 955

Ion-selective electrode

Cadmium(II) ion selective electrode based on pyridine-3-carboxyaldehyde thiosemicarbazone, 472

Bismuth(III)-selective membrane electrode based on inorganic ion exchanger, 875

IR spectra

Cr^{III}, Fe^{III}, Co^{II}, Ni^{II}, Cu^{II} and Zn^{II} complexes of 2,13-dimethyl-3,14-di-n-propyl-1,4,12,15-tetraazacyclodocosa-1,3,12,14-tetraene, 97

Mixed ligand complexes of alkaline earth metals. Part-XIII. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes with 5-nitrosalicylaldehyde and β-diketones, 137

Template synthesis of Mn^{II} complexes of tetraaza-macrocycles derived from 2,3-butanedione and diaminoalkanes, 140

Iron(III) complexes

Synthesis, spectroscopic, electrochemical and anti-HIV studies of some mononuclear and dinuclear Fe^{III} complexes of 3-hydroxy-4′-benzyloxy flavone containing oxygen, nitrogen and sulphur donors as co-ligands, 879

Isocyanodichlorides

Synthesis of 3-aryl-2-tert.butylimino-6-*p*-tolylimino-4-(*S*-tetra-*O*-benzoyl-D-glucopyranosyl)-2,3-dihydro-1,3,5-thiadiazine hydrochlorides and their antibacterial and antifungal studies, 1022

Isoflavone glycoside

Isoflavonoids from *Iris kumaonensis*, 86

Isooctylphenoxy polyethoxy ethanol

Surface tension studies for iso-octylphenoxypolyethoxy ethanol (TX-100) in water and in aqueous sodium chloride at various temperatures, 111

Isothermal and non-isothermal reactions

Kinetics of solid state reactions under isothermal and non-isothermal conditions, 315

Isotherms

Kinetic and isotherm anylyses for adsorption of a triphenylmethane dye onto jackfruit peel carbon, 232

Isothiobiurets

Synthesis of 3-aryl-2-tert.butylimino-6-*p*-tolylimino-4-(*S*-tetra-*O*-benzoyl-D-glucopyranosyl)-2,3-dihydro-1,3,5-thiadiazine hydrochlorides and their antibacterial and antifungal studies, 1022

Isothiocyanato complexes

Synthesis and characterization of some isothiocyanato complexes of dioxotungsten(VI) with morpholinomethyl urea and related ligands, 594

Isoxazole-4,6-diones

1,3-Dipolar cycloadditions of nitrones derived from protocatechuric aldehyde methylene ether : synthesis of isoxazole-4,6-diones, 1011

Jackfruit peel

Kinetic and isotherm analyses for adsorption of a triphenylmethane dye onto jackfruit peel carbon, 232

Karanijin

Studies on a carbazole alkaloid from *Murraya koenigii* Spreng. and flavonoids from *Pongamia glabra* Vent., 165

Kinetics

Kinetic and isotherm analyses for adsorption of a triphenylmethane dye onto jackfruit peel carbon, 232

Kinetics of Mn^{2+} catalysed oxidation of cyclic ketones by lead tetraacetate, 710

Kinetics and mechanism of oxidation of aliphatic alcohols by *N*-chloronicotinamide in aqueous acetic acid medium, 795

Effect of organic solvents (methylcellosolve, dimethylsulfoxide, acetonitrile and 1-propanol) on the tryptophan-ninhydrin reaction – A kinetic approach, 811

Spectral and kinetic studies of thermal decomposition of complexes of biologically active glutathione with Zn^{II} and Cd^{II} ions, 1191

Kinetics and mechanism

Peroxomonosulfuric acid oxidations : kinetics and mechanism of oxidation of cyclic ketones, 31

Kinetics and mechanism of silver(I) catalyzed oxidation of alanine by cerium(IV) in perchloric and medium, 290

Kinetics and mechanism of the oxidation of some thioacids by tetrabutylammonium tribromide, 302

Mechanistic investigatiion of oxidation of atenolol by *N*-chloro-*p*-toluenesulfonamide in alkaline medium : a kinetic approach, 903

Kinetics and mechanism of oxidation of alcohols by piperidinium chlorochromate, 913

Kinetics of oxidation

Contrasting solvent effects on the kinetics of oxidation of methionine by quinolinium fluorochromate, 616

Kinetics of reactions

Kinetics of solid state reactions under isothermal and non-isothermal conditions, 315

Kinetics of redox reaction

Kinetic study of redox reaction between diphenylbenzidine and thiosulfate, 49

Kinetics of S_N2 reaction

Solvent effect on alkaline fading of crystal violet in pure and aqueous mixtures of alcohols, 149

Kinetics of thermal dehydration

Kinetics of thermal dehydration and decomposition of hydrated chlorides of some 3d transition metals (Mn-Cu series). Dehydration and decomposition of $CuCl_2.2H_2O$, 108

Knoevenagel reactions

Solvent-free Knoevenagel condensation reaction under microwave irradiation exploiting a new reagent : antimony trichloride, 177

Lanthanone

Effect of the structural changes, correlation and role of donor atoms on the stabilities of some binary lanthanone(III) heterochelates in aqueous media, 547

Larvicidal studies

Synthesis of some *N*-substituted carbazoles and their larvicidal studies, 158

Lasonolide-A

A review of synthetic and molecular model study towards fixing up bio-active chiral centre at C_{28} of Lasonolide-A, an anticancer macrolide : A new chiral pool approach, 534

Laundry air

A sensitive spectrophotometric method for determination of carbon tetrachloride, 272

Leaf extract

Inhibitory effect of *Ricinus communis* (Castor-oil plant) leaf extract on corrosion of mild steel in low chloride medium, 357

Letter to the Edior

Tetrathiocarbamato complexes of nickel(II), cobalt(II), copper(II) and oxovanadium(IV) with forced configurations, 677

Polychelates of 4,4′-bis[(*N*-phenylsalicylaldimine-5)azo]biphenyl with some transition metal ions, 679

Ligand dependent metal-metal interaction in mixed-ligand oxovanadium(IV) coordination compounds with OO and NN donor ligands, 857

Chromium(III) reduction of halogenocobaloximes containing coordinated pyridine or pyridine-carboxamides : Kinetics and mechanism, 860

Lichixanthone

Chemical constituents of *Rhizophora mucronata* of Andaman and Nicobar Islands, 155

Lipid profile

Lipid profile and fatty acid composition in eggs of Gangetic little barb *Puntius sophore* in comparison with body tissue lipid, 723

Liquid crystal

Synthesis and study of new mesogenic homologous series : 4-(4′-n-alkoxybenzoyloxy)-3-methylphenylazo-4″-bromobenzenes, 143

Study of azoester mesogenic homologous series : *p*-(*p*′-*n*-Alkoxybenzoyloxy)-*o*-methyl phenylazo-*p*″-chlorobenzenes, 463

Homologous series of azomesogens : 4-(4′-n-Alkoxybenzoyloxy)-phenyl azobenzenes, 466

Liquid mixtures

Thermodynamic properties of binary liquid mixtures of 2-methoxyethanol with different amines at 308.15 K, 25

Density and viscosity of binary liquid mixtures of *n*-propylamine with polar and non-polar solvents vis-à-vis molecular interactions, 225

Nanoscopic structure of ionic liquids by neutron and X-ray diffraction, 1197

Lithium battery

Nanophase Sn composite anodes for Li-ion batteries, 1119

Lithium-oxygen battery

Temperature performance of the lithium/O_2 battery, 1055

Lutidine

Synthesis and spectroscopic studies of Co^{II} salicylates with N-donors, 589

Macrocycles

Designing and synthesis of macrocyclic Schiff base ligand : Study of interaction with Mn^{II}, Cu^{II}, Ni^{II} and Cu^{II} and biological screening, 454

Synthesis and characterization of nickel(II) and copper(II) complexes of some large-ring macrocycles derived from dimethylenetriamene, 732

Macrocyclic complexes

Cr^{III}, Fe^{III}, Co^{II}, Ni^{II}, Cu^{II} and Zn^{II} complexes of 2,13-dimethyl-3,14-di-n-propyl-1,4,12,15-tetraazacyclodocosa-1,3,12,14-tetraene, 97

Macrocyclic nickel(II) and copper(II) complexes derived from triethylenetetramine, 485

Macrocyclic ligands

Synthesis, cyclic voltammetry, spectral studies and magnetic moment on copper(II) complexes with N_2S_3 and N_4 donor macrocyclic ligands, 693

Copper(II) complexes with twelve to fourteen membered ring macrocyclic ligands, 1087

Magnesium

Mixed ligand complexes of alkaline earth metals. Part-XII. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes with 5-nitrosalicylaldehyde and β-diketones, 137

Magnetic moment

Cr^{III}, Fe^{III}, Co^{II}, Ni^{II}, Cu^{II} and Zn^{II} complexes of 2,13-dimethyl-3,14-di-n-propyl-1,4,12,15-tetraazacyclodocosa-1,3,12,14-tetraene, 97

Template synthesis of Mn^{II} complexes of tetraaza-macrocycles derived from 2,3-butanedione and diaminoalkanes, 140

Malachite green

Kinetic and isotherm analyses for adsorption of a triphenylmethane dye onto jackfruit peel carbon, 232

Mechanistic studies

Mechanistic studies on the chlorination of phenols with *N*-chlorobenzene sulphonamide, 608

Meloxicam

Determination and quantification of piroxicam in tablets by RP-HPLC, 838

Membrane electrode

Bismuth(III)-selective membrane electrode based on inorganic ion exchanger, 875

Memorial lecture

Structural aspects of some modified metal-alkoxides and related molecular precursors to ceramic materials by the sol-gel processing, 197

Metal cations

Thin-layer chromatography of certain metal cations with nonionic surfactant mediated mobile phase systems : separation of co-existing chromium(VI), manganese(II) and iron(III), 55

Metal complexes

Synthesis and characterization of piperazino-bis(methylantipyrine) and its complexes with chromium(III), manganese(II), cobalt(II), copper(II), zinc(II) and cadmium(II) ions, 404

Synthesis and characterization of new crown ethers of Schiff base type and their complexes, 414

Pyridinium hydrobromide perbromide as a brominating agent for the bromination of metal(II) complexes of Schiff base derived from acetylacetone and *p*-anisidine, 443

Designing and synthesis of macrocyclic Schiff base ligand : Study of interaction with Mn^{II}, Co^{II}, Ni^{II} and Cu^{II} and biological screening, 454

X-Ray diffraction studies of Ni^{II}, Cu^{II} and Zn^{II} complexes with 2-[2′-hydroxysalicylidene-5′-(2″-thiazolylazo)]phenol, 494

Synthesis, characterization and antimicrobial studies of Ti^{III}, Mn^{II}, Cu^{II} complexes with semicarbazones, 553

Study of complexes of cadmium(II) and lead(II) with mixed ligand (thioglycolate-oxalate/tartarate) systems in aqueous-methanol media at the droping mercury electrode, 561

Synthesis, characterization, thermal, electrical and antibacterial studies of complexes of bivalent metal ions, 777

Complexation equlibria of cephalexin with Hg^{II}, Zn^{II} and Cd^{II}, 931

Metal-ligand stability constant

Stability constants of some bivalent metal ions with naphthofuran-2-carbohydrazide Schiff base, 550

Methionine

Contrasting solvent effects on the kinetics of oxidation of methionine by quinolinium fluorochromate, 616

Methoxatin

PQQ, a new vitamin as a preventive against heart attack and strokes, 1065

Methyl benzimidazole

Synthesis and antiinflammatory evaluation of some imino-sugars of methylbenzimidazole, 180

α-Methylbenzyl-gem-dichlorides

Substituent effects on the spontaneous cleavage of α-methylbenzyl-gem-dichlorides in aqueous solution, 759

***N,N′*-Methylenebisacrylamide**

Micellar catalysis – A kinetic study of polymerization of *N,N′*-methylenebisacrylamide, 558

Methylene blue

Spectrophotometric study of photosensitized dechlorination of isomeric chloroanisidines, 424

Methylthymol blue

Microspectrophotometric determination of thorium(IV) and uranium(VI) with methylthymol blue, 853

Mesogen

Synthesis and study of new mesogenic homologous series : 4-(4′-n-alkoxybenzoyloxy)-3-methylphenylazo-4″-bromobenzenes, 143

Study of azoester mesogenic homologous series : *p*-(p′-n-Alkoxybenzoloxy)-*o*-methyl phenylazo-*p″*-chlorobenzenes, 463

Homologous series of azomesogens : 4-(4′-n-Alkoxybenzoyloxy)-phenyl azobenzenes, 466

Mesomorphism

Synthesis and study of new mesogenic homologous series : 4-(4′-n-alkoxybenzoyloxy)-3-methylphenylazo-4″-bromobenzenes, 143

$MgCr_2O_4$

Synthesis and characterisation of $MgCr_2O_4$ spinel precursor, 994

Micellar catalysis

Micellar catalysis – A kinetic study of polymerization of *N,N′*-methylenebisacrylamide, 558

Micellar media

Polarographic study on parathion in micellar media, 329

Micelles

Speciation studies of binary complexes of nickel(II) with L-arginine and L-histidine in micellar medium, 598

Microbial activity

Synthesis and antimicrobial activity of 2-substituted benzyl hydrazino-3-methyl quinoxalines, 872

Microbial corrosion

Kinetic and thermodynamic studies of microbial corrosion of mild steel specimen in marine environment, 376

Microbial studies

Synthesis, characterization and antimicrobial studies of Ti^{III}, Mn^{II}, Cu^{II} complexes with semicarbazones, 553

Microdetermination

Micro determination of oxprenolol hydrochloride and metoprolol tartrate with potassium dipertellurato cuprate(III) reagent, 362

Microrheology

Atomic force microscopy : applications to nanobiotechnology, 1147

Microwave irradiated reactions

Solvent-free Knoevenagel condensation reaction under microwave irradiation exploiting a new reagent : antimony trichloride, 177

Microwave irradiation

Synthesis of amides from carboxylic acids and urea in the presence of pyridine under microwave irradiation, 675

Solid phase synthesis of novel pyrazole derivatives from diaryl 1,3-diketones under microwave irradiation , 1016

Microwave radiation

Characterisation of γ-$A1_2O_3$ supported Pd catalysts by X-ray diffraction, temperature programmed reduction, thermal analysis and catalytic probe, 1069

Mild steel

Inhibitory effect of *Ricinus communis* (Castor-oil plant) leaf extract on corrosion of mild steel in low chloride medium, 357

Kinetic and thermodynamic studies of microbial corrosion of mild steel specimen in marine environment, 376

Mixed ligand complexes

Mixed ligand complexes of alkaline earth metals. Part-XIII. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes with 5-nitrosalicylaldehyde and β-diketones, 137

Mixed ligand (acetylacetonato)(chlorophenoxo) zirconium(IV) complexes and their reactivity, 354

Synthesis of mixed ligand complexes of Co^{III}, 441

Mixed ligand complexes of nickel-, copper- and zinc(II) with 5-chloro (or bromo) salicylaldehyde and hydroxyaromatic aldehydes or ketones, 445

Ligand dependent metal-metal interaction in mixed-ligand oxovanadium(IV) coordination compounds with OO and NN donor ligands, 857

Synthesis and characterization of mixed ligand complexes of thorium(IV) with *N,N'*-propylenebis-(3-carboxypropenamide) and various anions, 871

Mixed ligand complexes of alkaline earth metals. Part-XIV. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes with 5-nitrosalicylaldehyde and salicylaldehyde or hydroxyaromatic ketones, 1003

Mixed solvents

Excess refractive index, polarizability, polarization and the molar volume of some mixed solvents, 219

Effect of sodium chloride on surface and thermodynamic properties of aerosol-OT in aqueous medium, 469

Study of complexes of cadmium(II) and lead(II) with mixed ligand (thioglycolate-oxalate/tartarate) systems in aqueous-methanol media at the droping mercury electrode, 561

Mixed valence complexes

Chemistry of mononuclear and mixed valence binuclear oxovanadium chelates incorporating ONO-hydrazone ligands, 781

Mixed-valent diruthenium species

Synthesis and properties of long chain carboxyl and dicarboxyl chelated ruthenium organometallics incorporating the imine-phenol motif, 16

Mixtures of 2-ethoxyethanol

Thermodynamic properties of binary liquid mixtures of 2-methoxyethanol with different amines at 308.15 K, 25

Mn^{II} complexes

Template synthesis of Mn^{II} complexes of tetra-azamacrocyeles derived from 2,3-butanedione and diaminoalkanes, 140

Molar volume

Excess molar volume, excess energy and viscosity deviation of binary mixtures of tetrahydrofuran with some hydrocarbons at various temperatures, 625

A study on partial molar volumes of oxalic acid and its salts in water at various temperatures, 648

Molecular interactions

Density and viscosity of binary liquid mixtures of *n*-propylamine with polar and non-polar solvens vis-á-vis molecular interactions, 225

Spectroscopic studies of molecular interactions involving aniline and substituted aniline donors and chloranil as an electron acceptor in a binary solvent mixtures, 530

Molecular model

A review of synthetic and molecular model study towards fixing up bio-active chiral centre at C_{28} of Lasonolide-A, an anticancer macrolide : A new chiral pool approach, 534

Molecular sieve

Synthesis and characterization of a novel extra large pore aluminophosphate molecular sieve, NCL-6, 77

Molluscidial activity

Synthesis and molluscidal activity of 6-carboethoxy-(2-substituted)-1,3,4-thia/oxadiazolo-[2,3-*b*]pyrimidin-5-ones and 5-amino-(2-substituted)-1,3,4-thia/oxadiazolo[2,3-*b*]pyrimidin-7-ones,727

Molten hydrates

Conductivity, viscosity and volumetric behavior of molten hydrates of M^{3+} and M^{2+} ions, 1079

Molten salts

Structural analysis on molten rare-earth fluorides, 1059

Molybdenum(v) complexes

Synthesis of some molybdenum(v) and tungsten(v) complexes of 1-aryl-2,5-dithiohydrazodicarbonamides, 448

Monolayer

Removal of copper from wastewater using rice polish (rice bran), 374

MoPac-AMI

Theoretical studies on the charge transfer complexes of aromatic hydrocarbons with chloranil, 909

Morpholinomethyl urea

Synthesis and characterization of some isothiocyanato complexes of dioxotungsten(VI) with morpholinomethyl urea and related ligands, 594

Multicomponent gas mixture

Viscosity of multicomponent gas mixtures, 39

***Murraya koenigii* Spreng.**

Studies on a carbazole alkaloid from *Murraya koenigii* Spreng. and flavonoids from *Pongamia glabra* Vent., 165

Nanobiotechnology

Atomic force microscopy : applications to nanobiotechnology, 1147

Nanophase

Nanophase Sn composite anodes for Li-ion batteries, 1119

Naphthofuran Schiff base

Stability constants of some bivalent metal ions with naphthofuran-2-carbohydrazide Schiff base, 550

Naphthol yellow S

Electrochemical studies on textile dye naphthol yellow S with particular reference to colour removal, 306

Natural rubber

Studies on the effects of cyclohexyl benzthiazylsulfenamide accelerated sulfur vulcanization of natural rubber : Thermochemistry and oxidative aging, 639

Studies on effect of silane coupling agent on the mechanical properties of clay filled natural rubber, 985

Nematic

Synthesis and study of new mesogenic homologous series : 4-(4′-n-alkoxybenzoyloxy)-3-methylphenylazo-4″-bromobenzenes, 143

Study of azoester mesogenic homologous series : *p*-(*p*′-*n*-Alkoxybenzoyloxy)-*o*-methyl phenylazo-*p*″-chlorobenzenes, 463

Homologous series of azomesogens : 4-(4′-n-Alkoxybenzoyloxy)-phenyl azobenzenes, 466

Nephelauxetic effect

Optical properties and upconversion in Pr^{3+} doped in aluminium, barium, calcium fluoride glass-II, 697

Neutron reflectivity

Neutron reflectivity study of grafted poly(ethylene glycol) in the presence of an aqueous bovine serum albumin solution, 1133

Nickel

Speciation studies of binary complexes of nickel(II) with L-arginine and L-histidine in micellar medium, 598

Nickel complexes

Complex compounds of nickel(II) with bidentate heterocyclic ligands using both S and N as donor atoms, 389

Macrocyclic nickel(II) and copper(II) complexes derived from triethylenetetramine, 485

Nickel sulphide

Effect of solution concentration and deposition period on the properties of NiS_2 thin films, 526

Nickel, copper, zinc complexes

Mixed ligand complexes of nickel-, copper- and zinc(II) with 5-chloro (or bromo) salicylaldehyde and hydroxyaromatic aldehydes or ketones, 445

Nickel(II) complexes

Synthesis of nickel(II) complexes with some thiocarbamide derivatives, 401

Synthesis and characterization of nickel(II) and copper(II) complexes of some large-ring macrocycles derived from diethylenetriamine, 732

Synthesis, spectral, biological, thermal and cyclic voltammetirc studies of some Ni^{II} complexes of azodyes derived from 4-amino antipyrine, 886

Nicotine

A new solid sorbent system for rapid monitoring of nicotine, 1032

Nitrone

Synthesis and reduction of nitrones of 2-chlorobenzaldehyde and their antifungal potential, 917

1,3-Dipolar cycloadditions of nitrones derived from protocatechuric aldehyde methylene ether : synthesis of isoxazole-4,6-diones, 1011

NMR spectra

Mixed ligand complexes of alkaline earth metals. Part-XIII. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes with 5-nitrosalicylaldehyde and β-diketones, 137

Non-aqueous electrolyte

Temperature performance of the lithium/O_2 battery, 1055

Non-polar solvents

Density and viscosity of binary liquid mixtures on *n*-propylamine with polar and non-polar solvents vis-á-vis molecular interactions, 225

Nuclear quadrupole resonance spectra

Theoretical studies on the charge transfer complexes of aromatic hydrocarbons with chloranil, 909

Nuclear waste management

Synthesis of recyclable polymeric chelator containing hydroxy pyridinone ligands for actinides, 68

Oil of plant origin

Studies on alkyd resin from *Pithecellobrium dulce*, 186

Optical plastics

Optical plastics – a wonder material, 1113

Organic solvents

Estimation of 3-(2-hydroxy-5-methylphenyl)-5,5-dimethyl-1-phenylpyrazoline in organic solvent medium, 360

Effect of organic solvents (methylcellosolve, dimethylsulfoxide, acetonitrile and 1-propanol) on the tryptophan-ninhydrin reaction – A kinetic approach, 811

Orthometallated ruthenium

Synthesis and properties of long chain carboxyl and dicarboxyl chelated ruthenium organometallics incorporating the imine-phenol motif, 16

Oscillator strength

Optical properties and upconversion in Pr^{3+} doped in aluminium, barium, calcium fluoride glass-II, 697

Oxadiazoles

Synthesis of 2,5-disubstituted 1,3,4-oxadiazoles as potential antimicrobial agents, 746

Oxalic acid

A study on partial molar volumes of oxalic acid and its salts in water at various temperatures, 648

Oxidation

Kinetics and mechanism of Mn^{II} catalysed oxidation of amino alcohols (AAL) by Ce^{IV} in aqueous nitric acid medium, 569

Kinetics of Mn^{2+} catalysed oxidation of cyclic ketones by lead tetraacetate, 710

Kinetics and mechanism of oxidation of aliphatic alcohols by *N*-chloronicotinamide in aqueous acetic acid medium, 795

Mechanistic investigation of oxidation of atenolol by *N*-chloro-*p*-toluenesulfonamide in alkaline medium : a kinetic approach, 903

Kinetics and mechanism of oxidation of alcohols by piperidinium chlorochromate, 913

Oxidation of alanine by cerium(IV)

Kinetics and mechanism of silver(I) catalyzed oxidation of alanine by cerium(IV) in perchloric acid medium, 290

Oxidation of cyclic ketones

Peroxomonosulfuric acid oxidations : kinetics and mechanism of oxidation of cyclic ketones, 31

Oxirane

Synthesis of some thiosemicarbazone and oxirane derivatives as potent antitubercular agents, 940

Oxo-tungstate cluster

Synthesis and characterization of hexanuclear diazenido oxotungstate cluster $(NBu_4)_4[(W_6O_{17})(NNC_6H_5)_2]$, 245

Oxovanadium chelates

Chemistry of mononuclear and mixed valence binuclear oxovanadium chelates incorporating ONO-hydrazone ligands, 781

Oxovanadium (IV) complexes

Synthesis and spectroscopic studies on oxovanadium(IV) complexes with hydrazones containing indole ring, 689

Palladium catalyst

Characterisation of γ-Al_2O_3 supported Pd catalysts by X-ray diffraction, temperature programed reduction, thermal analysis and catalytic probe, 1069

Hydrogen purification for fuel cells : selective oxidation of carbon monoxide on Pd and $FePd/Al_2O_3$ catalysts, 1141

Palladium complexes

Equilibrium studies on binary and ternary complexes of palladium and cadmium with some nitrogen and oxygen donor ligands, 490

Palladium(II) catalyst

Reduction of nitroaromatics with a new heterogenised MCM-41-1-(benzimidazol-2-yl)ethanone thiosemicarbazone Pd^{II} complex, 153

Parathion

Polarographic study on parathion in micellar media, 329

Permonosulphuric acid oxidation

Peroxomonosulfuric acid oxidations : kinetics and mechanism of oxidation of cyclic ketones, 31

Pharmaceutical samples

Direct and derivative spectrophotometric determination of iron(III) with 2,4-dihydroxy benzaldehyde isonicotinoyl hydrazone in plant and pharmaceutical samples, 269

Pharmacological evaluations

Synthesis and pharmacological evaluation of 2-(3′,5′,-dichloro-benzo[*b*]thiophen-2′-yl)-5-aryl-1,3,4-oxadiazoles and 2-arylsulfonyl-hydrazinocarbonyl-3,5-dichlorobenzo[*b*]thiophenes, 1009

Phase transition of bromobismuthates

The phase transitions of methylammonium bromobismuthates $(CH_3NH_3)_3Bi_2Br_9$ and $(CH_3NH_3)_5Bi_2Br_{11}$, 74

Phenolphthalein

Photochromic behaviour of potassium hexacyanoferrate(II)-phenolphthalein system, 146

Phenols

Mechanistic studies on the chlorination of phenols with *N*-chlorobenzene sulphonamide, 608

Detection and spectrophotometric determination of some phenols, 945

Synthesis and plant growth retardant activity of bis-quaternary salts of ammonia from phenols, 975

Phosphate

Rapid determination of phosphate by indirect complexometric method, 1030

Photocatalytic activity

Modification of photocatalytic activity of antimony(III) sulphide in presence of sodium bicarbonate/carbonate, 807

Photocatalytic degradation

Application of ZnO as semiconductor in photocatalytic degradation of picrolonic acid and its comparison with picric acid degradation, 347

Photochromism

Photochromic behaviour of potassium hexacyanoferrate(II)-phenolphthalein system, 146

Photosensitized dechlorination

Spectrophotometric study of photosensitized dechlorination of isomeric chloroanisidines, 424

Physicochemical studies

Physico-chemical properties of soils of West Bengal mainly from non-deltaic region, 511

Picric acid

Application of ZnO as semiconductor in photocatalytic degradation of picrolonic acid and its comparison with picric acid degradation, 347

Picrolonic acid

Application of ZnO as semiconductor in photocatalytic degradation of picrolonic acid and its comparison with picric acid degradation, 347

Piperazino-bis(methylantipyrine)

Synthesis and characterization of piperazino-bis(methylantipyrine) and its complexes with chromium(III), manganese(II), cobalt(II), copper(II), zinc(II) and cadmium(II) ions, 404

Piperidinium chloro chromate

Kinetics and mechanism of oxidation of alcohols by piperidinium chlorochromate, 913

Piroxicam

Determination and quantification of piroxicam in tablets by RP-HPLC, 838

Planar nickel(II)

Planar four-coordinate nickel(II) complexes of tridentate ligands incorporating azo-oxime-carboxyl chelation : synthesis and structure, 898

Plant chemistry

Isoflavonoids from *Iris kumaonensis*, 86

Platinum(II) complexes

Reaction of pyridine bases with dichloro-{1-(alkyl)-2-(*p*-tolylazo)imidazole}-platinum(II). Spectroscopic and electro-chemical characterization of products, 459

Polar solvents

Density and viscosity of binary liquid mixtures of *n*-propylamine with polar and non-polar solvents vis-á-vis molecular interactions, 225

Polarographic study

Polarographic study on parathion in micellar media, 329

Polyethylene glycol

Neutron reflectivity study of grafted poly(ethylene glycol) in the presence of an aqueous bovine serum albumin solution, 1133

Polygonum polystachyum

A new aliphatic ester from the aerial parts of *Polygonum polystachyum*, 757

Polymeric chelator

Synthesis of recyclable polymeric chelator containing hydroxy pyridinone ligands for actinides, 68

Polymerization

Micellar catalysis – A kinetic study of polymerization of *N,N'*-methylenebisacrylamide, 558

Synthesis and characterization of dye based coloured copolyesters, 718

A study on the effectiveness of hexamethyltriethylenetetraamine ligand in the copper mediated atom transfer radical polymerization of acrylamide, 819

Polymers

Synthesis and characterization of dye based coloured copolyesters, 718

Solution properties of cationic and anionic surfactants : effect of solvent and polymers, 743

Polysulfonate

Synthesis and characterization of polysulfonate of 9,9′-bis(4-hydroxyphenyl) anthrone-10 and 3,3′-benzophenone disulfonyl chloride, 919

***Pongamia glabra* Vent.**

Studies on a carbazole alkaloid from *Murraya koenigii* Spreng. and flavonoids from *Pongamia glabra* Vent., 165

Pongamol

Studies on a carbazole alkaloid from *Murraya koenigii* Spreng. and flavonoids from *Pongamia glabra* Vent., 165

Porcelain

Substitution of silica by active alumina in triaxial porcelain, 637

Potassium

Characterisation of different forms of potassium in selected soils of West Bengal, 645

Potentiometric sensor

A potentiometric sensor based on heterogeneous inorganic chelating ion exchanger for the determination of Al^{III} ions, 507

Poton-ligand stability constant

Stability constants of some bivalent metal ions with naphthofuran-2-carbohydrazide Schiff base, 550

Psoralea corylifolia

Chemical investigation of oil from *Psoralea corylifolia* Linn., 60

Pyrazole

Solid phase synthesis of novel pyrazole derivatives from diaryl-1,3-diketones under microwave irradiation, 1016

Pyrazole derivatives

Synthesis and biological activity of some new pyrazole derivatives, 833

Pyrazolopyrimidine

Synthesis and antifungal activity studies of some pyrazolopyrimidine derivatives, 665

Pyridine bases

Reaction of pyridine bases with dichloro-{1-(alkyl)-2-(*p*-tolylazo)imidazole}-platinum(II). Spectroscopic and electrochemical characterization of products, 459

Pyrrolizidine alkaloids

Alkaloids of *Heliotropium indicum*, 175

Quantification

GC-MS and HPTLC analysis of constituents of an unexploded bomb, 131

Quantity parameters of solid

A study on quantity/intensity parameters of soil potassium following a year of cropping in an alluvial and a lateritic soil of West Bengal, 371

Quinoxalines

Synthesis and antimicrobial activity of 2-substituted benzyl hydrazino-3-methyl quinoxalines, 972

Radiation dose effect

Interaction of deoxyribonucleic acid with H_1 histone in the unirradiated and gamma irradiated states *in vitro*, 310

Raman spectra

The phase transitions of methylammonium bromobismuthates $(CH_3NH_3)_3Bi_2Br_9$ and $(CH_3NH_3)_5Bi_2Br_{11}$, 74

Rare earth fluorides

Structural analysis on molten rare-earth fluorides, 1059

Reaction mechanism

Chromium(III) reduction of halogenocobaloximes containing coordinated pyridine or pyridinecarboxamides : Kinetics and mechanism, 860

Reaction of diphenylbenzidine

Kinetic study of redox reaction between diphenyl-benzidine and thiosulfate, 49

Reduction of nitroaromatics

Reduction of nitroaromatics with a new heterogenised MCM-41-1-(benzimidazol-2-yl)ethanone thiosemicarbazone Pd^{II} complex, 153

Refractive index

Excess refractive index, polarizability, polarization and the molar volume of some mixed solvents, 219

Removal of cadmium

Lowcost bio-sorbent 'maize bran' for the removal of cadmium from wastewater, 342

Research in Chemistry

Century of notable research in chemistry, 1173

Retardant

Synthesis and plant growth retardant activity of bis-quaternary salts of ammonia from phenols, 975

Rheology

Investigation on viscous antagonism of ternary liquid mixtures and its relation to concentration, 814

Rhizophora mucronata

Chemical constituents of *Rhizophora mucronata* of Andaman and Nicobar Islands, 155

Rhodium

Spectrophotometric determination of rhodium(III) using 5-Br-PADAP and *N*-hydroxy-*N,N'*-diphenyl-benzamidine as reagent by extracting it in dichloromethane, 285

Rice polish (rice bran)

Removal of copper from wastewater using rice polish (rice bran), 374

Rice, wheat and water samples

Methodology for the estimation of carbofuran in rice, wheat and water samples, 183

Ring transformation

Ring transformation reactions of 3-[3/4-acetylphenyl] sydnones; synthesis of oxime, hydrazone and dibromo derivatives of 3-[3/4-acetylphenyl] sydnones and 3-[3/4-acetylphenyl]-5-methyl-[1,3,4]oxadialzolin-2-ones, 654

Ruthenium(II) complexes

Synthesis and characterization of (η^6-*p*-cymene) Ru^{II} complexes containing N, N O donor ligands and tertiary phosphines, 497

Ruthenium(III)

Ruthenium(III) catalysed polymerization of acrylonitrile with aminoalcohols in presence of CCl_4, 521

Salmon sperum DNA

Electrochemical and spectroscopic studies on the interaction between copper(II) complex of Schiff base ligand and DNA, 393

Scanning microscopy

Atomic force microscopy : applications to nanobiotechnology, 1147

Schiff base

Synthesis and characterization of new crown ethers of Schiff base type and their complexes, 414

Synthesis of mixed ligand complexes of Co^{III}, 441

Pyridinium hydrobromide perbromide as a brominating agent for the bromination of metal(II) complexes of Schiff base derived from acetyl acetone and *p*-anisidine, 443

Synthesis and characterization of Pb^{II}, Sn^{II}, Hg^{II} and Zn^{II} complexes with Schiff base of aminothiazoles, 452

Designing and synthesis of macrocyclic Schiff base ligand : Study of interaction with Mn^{II}, Co^{II}, Ni^{II} and Cu^{II} and biological screening, 454

Schiff bases of isatin

Complexes of tin(IV) and zirconium(IV) with Schiff bases derived from isatin and diamines, 71

Seed oil

Studies on alkyd resin from *Pithecellobrium dulce*, 186

Selective oxidation

Hydrogen purification for fuel cells : selective oxidation of carbon monoxide on Pd and $FePd/Al_2O_3$ catalysts, 1141

Semicarbazones

Synthesis, characterization and antimicrobial studies of Ti^{III}, Mn^{II}, Cu^{II} complexes with semicarbazones, 553

Separation of Cr^{6+}, Mn^{2+}, Fe^{3+}

Thin-layer chromatography of certain metal cations with noniomic surfactant mediated mobile phase systems : separation of co-existing chromium(VI), manganese(II) and iron(III), 55

Sequential extraction

Microwave-assisted sequential extraction of fly ash : Studies on chemical speciation of zinc, copper, arsenic and manganese, 433

Silane coupling agent

Studies on effect of silane coupling agent on the mechanical properties of clay filled natural rubber, 985

Silica

Substitution of silica by active alumina in triaxial porcelain, 637

Silver(I) catalyzed oxidation

Kinetics and mechanism of silver(I) catalyzed oxidation of alanine by cerium(IV) in perchloric acid medium, 290

Sintenin

The synthesis of Sintenin, a new cytotoxic ester from *Piper sintenense*, 938

Sintering behaviour

Sintering and mechanical behaviour of CeO_2 doped ZrO_2 ceramics, 578

Smectic

Synthesis and study of new mesogenic homologous series : 4-(4′-n-alkoxybenzoyloxy)-3-methylphenylazo-4″-bromobenzenes, 143

Sn-S bonds

Synthesis, spectral characterization and reactivity of chloro diphenyltin(IV) dithio complexes having Sn-S bonds, 964

Soils

Exchange capacity of soils, metal mobilization and soil pollution heavy metals in West Bengal, 240

Physico-chemical properties of soils of West Bengal mainly from non-deltaic region, 511

Characterisation of different forms of potassium in selected soils of West Bengal, 645

A new spot test for the detection of dithiocarbamate fungicides in soil and water, 926

Adsorption-desorption of carbofuran in soils, 989

Soil pollution

Exchange capacity of soils, metal mobilization and soil pollution heavy metals in West Bengal, 240

Solid phase synthesis

Solid phase synthesis of novel pyrazole derivatives from diaryl 1,3-diketones under microwave irradiation, 1016

Solid sorbent

A new solid sorbent system for rapid monitoring of nicotine, 1032

Solid state conductance

Solid state conductance in sucrose and its allied crystalline products, 437

Solid state kinetics

Kinetics of thermal dehydration and decomposition of hydrated chlorides of some 3d transition metals (Mn-Cu series). Dehydration and decomposition of $CuCl_2.2H_2O$, 108

Spectral and kinetic studies of thermal decomposition of complexes of biologically active glutathione with Zn^{II} and Cd^{II} ions, 1191

Solid state reactions

Kinetics of solid state reactions under isothermal and non-isothermal conditions, 315

Solutions

Effect of solution concentration and deposition period on the properties of NiS_2 thin films, 526

Solutions studies

A solution study of copper(II)-dipeptide complexation with tyrosinate and lysinate as bridging residues, 503

Solvent effect

Solvent effect on alkaline fading of crystal violet in pure and aqueous mixtures of alcohols, 149

Interaction of deoxyribonucleic acid with H_1 histone in the unirradiated and gamma irradiatd states *in vitro*, 310

Contrasting solvent effects on the kinetics of oxidation of methionine by quinolinium fluorochromate, 616

Solvent free processes

Solvent-free *N*-hydroxymethylation using formalin over basic alumina, 573

Solvent free reactions

Solvent-free Knoevenagel condensation reaction under microwave irradiation exploiting a new reagent : antimony trichloride, 177

Solvent polarity scale

On empirical Π* solvent polarity scale, 46

Sound speed

Acoustic studies of systems of aliphatic and aromatic hydrocarbons with 1-butanol at 298, 308 and 318 K and application of theoretical approaches, 791

Space group

An *ipso* aromatic substitution leading to a rare space group $P4_2$, 1129

Speciation

Speciation studies of binary complexes of nickel(II) with L-arginine and L-histidine in micellar medium, 598

Spectra (IR; NMR)

Mixed ligand complexes of alkaline earth metals. Part-XIV. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes with 5-nitrosalicylaldehyde and salicylaldehyde or hydroxyaromatic ketones, 1003

Spectral characteristics

UV and fluorescence spectral characteristics of Ciprofloxacin-Betacyclodextrin inclusion complex, 575

Spectral studies

Synthesis and characterization of piperazino-bis(methylantipyrine) and its complexes with chromium(III), manganese(II), cobalt(II), copper(II), zinc(II) and cadmium(II) ions, 404

Synthesis, spectral, biological, thermal and cyclic voltammetric studies of some Ni^{II} complexes of azodyes derived from 4-amino antipyrine, 886

Spectrometry

Determination of fenitrothion in water samples by spectrometry using new reagents iminodibenzyl and 4-amino-5-hydroxy-2,7-naphthalene disulfonic acid, 764

Spectrophotometric

A sensitive spectrophotometric method for determination of carbon tetrachloride, 272

Spectrophotometric determination

Microspectrophotometric determination of thorium(IV) and uranium(VI) with methylthymol blue, 853

Spectrophotometry

Methodology for the estimation of carbofuran in rice, wheat and water samples, 183

Spectrophotometric determination of rhodium(III) using 5-Br-PADAP and *N*-hydroxy-*N,N'*-phenylbenzamidine as reagent by extracting it in dichloromethane, 285

Detection and spectrophotometric determination of some phenols, 945

Extractive spectrophotonletric determination of trace amount of copper(II) using 1,5-diphenyl-1,4-pentadiene-3-oxime, 1038

Spectroscopic investigation

Synthesis and spectroscopic studies of Co^{II} salicylates with N-donors, 589

Spectroscopic studies

Reaction of pyridine bases with dichloro-{1-(alkyl)-2-(*p*-tolylazo) imidazole}-platinum(II). Spectroscopic and electrochemical characterization of products, 459

Spectroscopic studies of molecular interactions involving aniline and substituted aniline donors and chloranil as an electron acceptor in a binary solvent mixtures, 530

Spectroscopic and X-ray crystal structure studies of 2-aminothiazole-3,5-dinitrobenzoic acid and 3,5-dinitrosalicylic acid derivatives, 799

Synthesis, spectroscopic, electrochemical and anti-HIV studies of some mononuclear and dinuclear Fe^{III} complexes of 3-hydroxy-4′-benzyloxy flavone containing oxygen, nitrogen and sulphur donors as co-ligands, 879

Speed of sound

Different ways of calculating ideal speed of sound and internal pressure and their excess counterparts, 517

Spinel precursor

Synthesis and characterisation of $MgCr_2O_4$ spinel precursor, 994

Spot list

A new spot test for the detection of dithiocarbamate fungicides in soil and water, 926

Stability constants

Synthesis of di(4-chlorophenyl)carbazone and its acidity with bivalent metal ions in solution, 351

Mixed metal complex formation of diethylenetriaminepentaacetic acid involving cadmium(II) and alkaline earth metal ions, 421

Speciation studies of binary complexes of nickel(II) with L-arginine and L-histidine in micellar medium, 598

Sterol-stigmasterol

Chemical investigation of oil from *Psoralea corylifolia* Linn., 60

Strontium

Mixed ligand complexes of alkaline earth metals. Part-XIII. Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes with 5-nitrosalicylaldehyde and β-diketones, 137

Structural changes

Effect of the structural changes, correlation and role of donor atoms on the stabilities of some binary lanthanone(III) heterochelates in aqueous media, 547

Structure

Planar four-coordinate nickel(II) complexes of tridentate ligands incorporating azo-oxime-carboxyl chelation : synthesis and structure, 898

Styrene butadiene rubber

Effect of titanate coupling agent on the mechanical properties of flyash filled styrene butadiene, 981

Substituted acetophenone

Synthesis and biological activity of some new pyrazole derivatives, 833

Substituted amides

Infrared spectra of *N*-aryl substituted amides 2/4-XC_6H_4NHCOR (R = H, $CH_{3-i}X_i$, C_6H_5 or C_6H_5Cl; X = H, Cl or CH_3 and i = 0, 1, 2 or 3), 564

Substituted antipyrine

Synthesis and characterization of iron(III), cobalt(II), copper(II), zinc(II) and mecury(II) complexes of 4-piperidinomethyl antipyrine, 892

Substituted carbazoles

Synthesis of some *N*-substituted carbazoles and their larvicidal studies, 158

Substituted coumarins

Synthesis of some novel 4-substituted coumarins having antibacterial activity (Part-I), 254

Substituted phenols

X-Ray diffraction studies of Ni^{II}, Cu^{II} and Zn^{II} complexes with 2-[2′-hydroxysalicylidene-5′-(2″-thiazolylazo)] phenol, 494

Synthesis and antibacterial activity of new *N*-acyl-*N*′-(3-chloro-4′-fluorophenyl)thioureas, 761

Substituent effect

Substituent effect on the spontaneous cleavage of α-methylbenzyl-gem-dichlorides in aqueous solution, 759

***ipso* Substitution**

An *ipso* aromatic substitution leading to a rare space group $P4_2$, 1129

Sucrose

Solid state conductance in sucrose and its allied crystalline products, 437

Sulphur vulcanization

Studies on the effects of cyclohexyl benzthiazylsulfenamide accelerated sulfur vulcanization of natural rubber : Thermochemistry and oxidative aging, 639

Superoxide

Bisbenzimidazole diamide copper(II) complexes and their reactivity towards superoxide, 1123

Surface properties

Effect of sodium chloride on surface and thermodynamic properties of aerosol-OT in aqueous medium, 469

Surface tension

Surface tension studies for iso-octylphenoxypolyethoxy ethanol (TX-l00) in water and in aqueous sodium chloride at various temperatures, 111

Surfactants

Solution properties of cationic and anionic surfactants : effect of solvents and polymers, 743

Survismeter

Studies of intermolecular force coefficient (σ^{o}_{imf}) for methyl derivatives of urea in aqueous solutions with Friccohesity, a new physicochemical function, from 293.15 to 303.15 K, 1183

Synergistic extraction

Synergistic extraction of uraniunl(VI) in presence of 2,2′-dipyridyl and neutral donors by absorption spectrophotometric method, 1035

Synthesis

Ultrasonic irradiated synthesis and herbicidal activities of 5,7-disubstituted-2-(substituted pyridine-3-formylimino)-2*H*-1,2,4-thiadiazolo[2,3-*a*] pyrimidine derivatives, 79

Synthesis and biological activity of *N*′-(substituted pyrimidin-2-yl)-*N*-dichlorochrysanthemoyl thioureas and their fused heterocyclic compounds, 262

Synthesis of some molybdenum(V) and tungsten(V) complexes of 1-aryl-2,5-dithiohydrazo-dicarbonamides, 448

Synthesis and characterization of Pb^{II}, Sn^{II}, Hg^{II} and Zn^{II} complexes with Schiff base of aminothiazoles, 452

Synthesis and characterization of cardo copolyester of 9,9′-bis(4-hydroxy phenyl) anthrone-10 and 1,1′-bis(R,4-hydroxy phenyl) cyclohexane with terephthaloyl chloride, 620

Synthesis, spectroscopic, electrochemical and anti-HIV studies of some mononuclear and dinuclear Fe^{III} complexes of 3-hydroxy-4′-benzyloxy flavone containing oxygen, nitrogen and sulphur donors as co-ligands, 879

Synthesis and characterization of iron(III), cobalt(II), copper(II), zinc(II) and mecury(II) complexes of 4-piperidinomethyl antipyrine, 892

Synthesis and reduction of nitrones of 2-chlorobenzaldehyde and their antifungal potential, 917

Synthesis and characterization of polysulfonate of 9,9′-bis(4-hydroxyphenyl) anthrone-10 and 3,3′-benzophenone disulfonyl chloride, 919

Synthesis and antifungal screening of some new 1,3-diketo amino analogues, 942

Synthesis and antimicrobial activity of 2-substituted benzyl hydrazino-3-methylquinoxalines, 972

Synthesis and plant growth retardant activity of bis-quaternary salts of ammonia from phenols, 975

Synthesis and characterisation of $MgCr_2O_4$ spinel precursor, 994

Synthesis and characterization

Synthesis and characterization of hexanuclear diazenido oxotungstate cluster $(NBu_4)_4[(W_6O_{17})(NNC_6H_5)_2]$, 245

Synthesis and characterization of (η^6-*p*-cymene) Ru^{II} complexes containing N, N O donor ligands and tertiary phosphines, 497

Synthesis, spectral characterization and reactivity of chloro diphenyltin(IV) dithio complexes having Sn-S bonds, 964

Synthesis of amides

Synthesis of amides from carboxylic acids and urea in the presence of pyridine under microwave irradiation, 675

Synthesis of azines

Termolecular one-pot synthesis of symmetrical azines of 4-acetyl-3-arylsydnones. Hydrazone and azine derivatives of 4-acetyl-3-arylsydnones, their spectral characterization and biological properties, 659

Synthesis of coumarins

Synthesis of some novel 4-substituted coumarins having antibacterial activity (Part-I), 254

Novel method for synthesis of some biologicaly active aminocoumarins, 258

Synthesis of iminosugars

Synthesis and antiinflammatory evaluation of some imino-sugars of methylbenzimidazole, 180

Synthesis of oximes

Ring transformation reactions of 3-[3/4-acetylphenyl) sydnones; synthesis of oxime, hydrazone and dibromo derivatives of 3-(3/4-acetylphenyl) sydnones and 3-[3/4-acetylphenyl]-5-methyl-(1,3,4)oxadiazolin-2-ones, 654

Template synthesis

Template synthesis of Mn^{II} complexes of tetraazamacrocycles derived from 2,3-butanedione and diaminoalkanes, 140

Terephthaloyl chloride

Synthesis and characterization of cardo copolyester of 9,9′-bis(4-hydroxy phenyl) anthrone-10 and 1,1′-bis(R,4-hydroxy phenyl) cyclohexane with terephthaloyl chloride, 620

Terminalia myriocarpa

Chemical constituents of the bark of *Terminalia myriocarpa*, 673

Ternary complexes

Equilibrium studies on binary and ternary complexes of palladium and cadmium with some nitrogen and oxygen donor ligands, 490

Ternary liquid mixtures

Investigation on viscous antagonism of ternary liquid mixtures and its relation to concentration, 814

Ternary metal complexes

A novel ionophoretic technique in the study of binary and ternary metal-4-hydroxybenzoate complexes, 955

Tertiary phosphines

Synthesis and characterization of (η_6-*p*-cymene) Ru^{II} complexes containing N, N O donor ligands and tertiary phosphines, 497

Tetraazamacrocycles

Template synthesis of Mn^{II} complexes of tetraazamacrocycles derived from 2,3-butanedione and diaminoalkanes, 140

Tetrabutylammoniumtribromide

Kinetics and mechanism of the oxidation of some thioacids by tetrabutylammonium tribromide, 302

Tetrazolotetrazoles

Use of 1,5-diaminotetrazole in the synthesis of some fused heterocyclic compounds, 172

Tetrazolotriazepines

Use of 1,5-diaminotetrazole in the synthesis of some fused heterocyclic compounds, 172

Tetrazolotriazines

Use of 1,5-diaminotetrazole in the synthesis of some fused heterocyclic compounds, 172

Tetryl

GC-MS and HPTLC analysis of constituents of an unexploded bomb, 131

Textile dyes

Electrochemical studies on textile dye naphthol yellow S with particular reference to colour removal, 306

Theoretical studies

Theoretical studies on the thermal decomposition of fluoromethanethiol (CH_2FSH), 114

Theoretical studies on the charge transfer complexes of aromatic hydrocarbons with chloranil, 909

Thermal analysis

Characterisation of γ-$A1_2O_3$ supported Pd catalysts by X-ray diffraction, temperature programmed reduction, thermal analysis and catalytic probe, 1069

Thermal decomposition

Theoretical studies on the thermal decomposition of fluoromethanethiol (CH_2FSH), 114

Spectral and kinetic studies of thermal decomposition of complexes of biologically active glutathione with Zn^{II} and Cd^{II} ions, 1191

Thermal decomposition kinetics of Zn^{II} chelates of substituted chalcones, 1006

Thermal dehydration

A comparative study of the thermal dehydration characteristics of $MCl_2.2H_2O$ (where M = Mn^{2+}, Fe^{2+}, Co^{2+}, Ni^{2+} and Cu^{2+}) under dynamic condition, 1000

Thermal studies

Thermal studies on some transition metal complexes with *N,N′*-triethylenediaminebis(3-carboxypropenamide), 545

Synthesis and spectroscopic studies of Co^{II} salicylates with N-donors, 589

Synthesis, spectral, biological, thermal and cyclic voltammetric studies of some Ni^{II} complexes of azodyes derived from 4-amino antipyrine, 886

Thermochemistry

Studies on the effects of cyclohexyl benzthiazyl-sulfenamide accelerated sulfur vulcanization of natural rubber thermochemistry and oxidative aging, 639

Thermodynamic parameters

Adsorption-desorption of carbofuran in soils, 989

Thermdynamic parameters

Thermodynamic properties of binary liquid mixtures of 2-methoxyethanol with different amines at 308.15 K, 25

Effect of sodium chloride on surface and thermodynamic properties of aerosol-OT in aqueous medium, 469

Thermodynamic studies

Kinetic and thermodynamic studies of microbial corrosion of mild steel specimen in marine environment, 376

Thermogravimetry

Synthesis, characterization, thermal, electrical and antibacterial studies of complexes of bivalent metal ions, 777

1,3,4-Thia/oxadiazolo[2,3-*b*]pyramidines-7/5-ones

Synthesis and molluscicidalactivity of 6-carboethoxy-(2-substituted)-1,3,4-thia/oxadiazolo-[2,3-*b*]pyrimidin-5-ones and 5-amino-(2-substituted)-1,3,4-thia/oxadiazolo[2,3-*b*]pyrimidin-7-ones, 727

Thiadiazolopyrimidine

Ultrasonic irradiated synthesis and herbicidal activities of 5,7-disubstituted-2-(substituted pyridine-3-formylimino)-2*H*-1,2,4-thiadiazolo[2,3-*a*] pyrimidine derivatives, 79

Synthesis and biological activity of *N'*-(substituted pyrimidin-2-yl)-*N*-dichlorochrysanthemoyl thioureas and their fused heterocyclic compounds, 262

Thiazoles

Electrochemicul behaviour of 3-[benzothiazolyl] azomethineindole, 714

Synthesis of alkoxyphthalimide derivatives of 5-arylidene-2-(6′-chlorobenzothiazol-2′-yl-imino)-4-thiazolidinones, 754

Synthesis, characterization, thermal, electrical and antibacterial studies of complexes of bivalent metal ions, 777

Thiazolidin-4-ones

Synthesis of alkoxyphthalimide derivatives of *p*-bis-(2-hydroxy-4-aryl-6-iminothiazolidino[4,5-*b*]pyrimidin-N^6-yl)biphenyls, 337

Thin films

Effect of solution concentration and deposition period on the properties of NiS_2 thin films, 526

Electrochemical and corrosion studies on electrosynthesised CdInGaSe thin films, 845

Thin layer chromatography

Thin-layer chromatography of certain metal cations with nonionic surfactant mediated mobile phase systems : separation of co-existing chromium(VI), manganese(II) and iron(III), 55

Thioacids

Kinetics and mechanism of the oxidation of some thioacids by tetrabutylammonium tribromide, 302

Thiocarbamate

A new spot test for the detection of dithiocarbamate fungicides in soil and water, 926

Thiocarbamide derivatives

Synthesis of nickel(II) complexes with some thiocarbamide derivatives, 401

Thiophene

Friedel-Crafts acylation of furan and thiophene using ytterbium(III) tritluoromethanesulfonate in [BPy][BF_4] ionic liquid, 398

Synthesis and pharmacological evaluation of 2-(3′,5′-dichloro-benzo[*b*]thiophen-2′-yl)-5-aryl-1,3,4-oxadiazoles and 2-arylsulfonylhydrazinocarbonyl-3,5-dichlorobenzo[*b*]thiophenes, 1009

Thiophosphate pesticides

Use of chloramine-T for the determination of thiophosphate pesticides, 670

Thioquinazolinone

Synthesis of some new thioquinazolinone derivatives of biological activity, 651

Thiosemicarbazone

Cadmium(II) ion selective electrode based on pyridine-3-carboxyaldebyde thiosemicarbazone, 472

Synthesis of some thiosemicarbazone and oxirane derivatives as potent antitubercular agents, 940

Thioureides

On lactosyl thioureides : synthesis of certain *S*-hepta-*O*-acetyllactosyl-l-arylisothiocarbamides, 1025

Thorium(IV)

Microspectrophotometric determination of thorium(IV) and uranium(VI) with methylthymol blue, 853

Synthesis and characterization of mixed ligand complexes of thorium(IV) with *N,N'*-propylenebis-(3-carboxypropenamide) and various anions, 871

Titanate coupling

Effect of titanate coupling agent on the mechanical properties of flyash filled styrene butadiene, 981

Titanium(IV) oxide

Synthetic hydrous titanium(IV) oxide (HTO) : Adsorptive removal of lead(II) from the contaminated industrial waste water, 632

Topological indices

Use of distance-based topological indices for the estimation of ^{13}C NMR shifts : A case of benzene derivatives, 247

Toxicity

Methodology for the estimation of carbofuran in rice, wheat and water samples, 183

Green chemistry in sustainable national development, 1103

Toxicity test

Larvicidal studies of chalcones and their derivatives, 161

Studies on a carbazole alkaloid from *Murraya koenigii* Spreng. and flavonoids from *Pongamia glabra* Vent., 165

Trace elements

Determination of chromium, copper, manganese, nickel and zinc by flame atomic absorption spectrometry after separation of bentonite modified with trioctylamine, 134

Trace metals

Application of voltammetric methods for the analysis of lead and other trace metals in lepidolite rock sample, 265

Transfer free energy

Solvent effect on alkaline fading of crystal violet in pure and aqueous mixtures of alcohols, 149

Transition metals

Cr^{III}, Fe^{III}, Co^{II}, Ni^{II}, Cu^{II} and Zn^{II} complexes of 2,13-dimethyl-3,14-di-n-propyl-1,4,12,15-tetraazacyclodocosa-1,3,12,14-tetraene, 97

Reductive cleavage of Se-Se bond by $Sm/NiCl_2$ or $Sm/NiCl_2.6H_2O$ system : A novel preparation of unsymmetrical aryl selenides, 958

Transition metal complexes

Thermal studies on some transition metal complexes with *N,N'*-triethylenediaminebis(3-carboxypropenamide), 545

Synthesis and characterization of iron(III), cobalt(II), copper(II), zinc(II) and mecury(II) complexes of 4-piperidinomethyl antipyrine, 892

Transition metals-3d series

A comparative study of the thermal dehydration characteristics of $MCl_2.2H_2O$ (where M = Mn^{2+}, Fe^{2+}, Co^{2+}, Ni^{2+} and Cu^{2+}) under dynamic condition, 1000

Transition probability

Optical properties and upconversion in Pr^{3+} doped in aluminium, barium, calcium fluoride glass-II, 697

Transition state

Solvent effect on alkaline fading of crystal violet in pure and aqueous mixtures of alcohols, 149

Triazines derivatives

Synthesis of substituted *s*-triazine derivatives and studies of their antimicrobial activities, 83

Triazolotetrazoles

Use of 1,5-diaminotetrazole in the synthesis of some fused heterocyclic compounds, 172

Tridentate ligands

Planar four-coordinate nickel(II) complexes of tridentate ligands incorporating azo-oxime-carboxyl chelation : synthesis and structure, 898

Triethylenetetramine

Macrocyclic nickel(II) and copper(II) complexes derived from triethylenetetramine, 485

Trioctyl amine

Determination of chromium, copper, manganese, nickel and zinc by flame atomic absorption spectrometry after separation of bentonite modified with trioctylamine, 134

Trioxide

Substitution of silica by active alumina in triaxial porcelain, 637

Triphenylmethane dye

Kinetic and isotherm analyses for adsorption of a triphenylmethane dye onto jackfruit peel carbon, 232

Triterpenoids

A new triterpenic constituent from *Andrachne cordifolia*, 936

Tungsten complexes

Synthesis of some molybdenum(V) and tungsten(V) complexes of 1-aryl-2,5-dithiohydrazodicarbonamides, 448

Twelve membered ring complexes

Copper(II) complexes with twelve to fourteen membered ring macrocyclic ligands, 1087

Ultrasonc irradiation

Ultrasonic irradiated synthesis and herbicidal activities of 5,7-disubstituted-2-(substituted pyridine-3-formylimino)-2*H*-1,2,4-thiadiazolo[2,3-*a*] pyrimidine derivatives, 79

Uranium(VI)

Microspectrophotometric determination of thorium(IV) and uranium(VI) with methylthymol blue, 853

Synergistic extraction of uranium(VI) in presence of 2,2′-dipyridyl and neutral donors by absorption spectrophotometric method, 1035

Vanadium

Ligand dependent metal-metal interaction in mixed-ligand oxovanadium(IV) coordination compounds with OO and NN donor ligands, 857

Vilsmeier-Haack reagent

Vilsmeier-Haack preparation of 2-acylpyrroles using bis(trichloromethyl)carbonate and *N,N*-dimethylacylamines, 1019

Viscometric studies

Viscometric studies of cesium halides, $(C_4H_9)_4NBr$, NaBr and $NaBPh_4$ in aqueous acetone at 298.15 K, 36

Viscosity

Viscosity of multicomponent gas mixtures, 39

Viscometric studies of aqueous solutions of electrolytes and non-electrolytes, 333

Excess molar volume, excess energy and viscosity deviation of binary mixtures of tetrahydrofuran with some hydrocarbons at various temperatures, 625

Investigation on viscous antagonism of ternary liquid mixtures and its relation to concentration, 814

Conductivity, viscosity and volumetric behavior of molten hydrates of M^{3+} and M^{2+} ions, 1079

Excess viscosities (η^E) of glycine with halide salts of alkali metals of IA group in aqueous solutions at 310.15 K for structural interactions, 1091

Vitamin

PQQ, a new vitamin as a preventive against heart attack and strokes, 1065

Voltammetric method

Application of voltammetric methods for the analysis of lead and other trace metals in lepidolite rock sample, 265

Voltammetry

Voltammetric method for the study of corrosion kinetics, 42

Adsorptive cathodic stripping voltammetric determination of copper in fish samples, 842

Vulcanization of rubber

Electron microscopy study and vulcanization characteristics of insoluble sulfur, 538

Waste water treatment

Lowcost bio-sorbent 'maize bran' for the removal of cadmium from wastewater, 342

Water quality parameters

The effect of different carbon sources as an energy source for biological denitrification through *Pseudomonas stutzeri* and impact on other water quality parameters, 978

Water-ethanol mixtures

Conductance measurements of narcotic-analgesic drugs in ethanol + water mixtures at 25°C, 602

X-Ray crystal structure

Spectroscopic and X-ray crystal structure studies of 2-aminothiazole-3,5-dinitrobenzoic acid and 3,5-dinitrosalicylic acid derivatives, 799

X-Ray difraction

X-Ray diffraction studies of Ni^{II}, Cu^{II} and Zn^{II} complexes with 2-[2′-hydroxysalicylidene-5′-(2″-thiazolylazo)phenol, 494

Nanoscopic structure of ionic liquids by neutron and X-ray diffraction, 1197

Ytterbium compounds

Friedel-Crafts acylation of furan and thiophene using ytterbium(III) trifluoromethanesulfonate in [BPy][BF_4] ionic liquid, 398

Zinc

Chloroanilines as corrosion inhibitors for zinc in nitric acid, 739

Zinc complexes

Thermal decomposition kinetics of Zn^{II} chelates of snbstitnted chalcones, 1006

Zinc thiolates

Electrochemical reactions at sacrificial electrodes. Part-XVI : Synthesis of zinc thiolates/dithiolatės and their coordination compounds, 555

Zirconium complexes

Mixed ligand (acetylacetonato)(chlorophenoxo) zirconium(IV) complexes and their reactivity, 354

Zirconium oxide ceramics

Sintering and mechanical behaviour of CeO_2 doped ZrO_2 ceramics, 578

ZnO semiconductor

Applilcation of ZnO as semiconductor in photocatalytic degradation of picrolonic acid and its comparison with picric acid degradation, 347

J. Indian Chem. Soc.,
Vol. 82, December 2005, pp. 1260-1264
